Abductors At Large In Los Angeles

Kidnaped Boy Returned, $250,000 Ransom Paid

BEVERLY HILLS, Calif. (AP) — The kidnaped 11-year-old son of a Beverly Hills financier has been returned home safely and $250,000 ransom paid, authorities said today.

Kenneth Young, the son of Herbert J. Young, 35, president of Gibraltar Savings and Loan Association, was freed in nearby Santa Monica after the ransom was left a few miles away in Westwood, said Beverly Hills Police Chief Clinton H. Anderson.

The FBI said the kidnapers picked up $250,000 and are at large.

The boy was bound and blindfolded and left in a car parked in the garage of a Santa Monica apartment house.

He was told to wait a half hour before doing anything," said Wesley G. Grapp, agent in charge of the Los Angeles FBI office.

He said Kenneth waited, then freed himself and went to the nearest apartment to call home.

FBI agents and members of his family picked him up about 4 a.m. Grapp said the boy appeared to be well but was being examined by a doctor at the Youngs' plush Beverly Hills home.

The Los Angeles Times said that when the boy was taken from his bedroom early Monday a note was left on the bed demanding ransom.

In Washington the FBI said the boy had been returned unharmed after payment of $250,000 ransom by his father.

J. Edgar Hoover, FBI director, said the safe return of the child has been the primary concern of the agency since the kidnaping.

But he said an intensive, full-scale investigation has been launched to identify and locate those responsible.

Hoover said the kidnaping was carried out April 3 sometime between 12:30 and 8 a.m. by means of forcible entry to the Young home. A ransom note demanding $250,000 for the return of the victim was left in the boy's room," the FBI chief said.

Beverly Hills police gave no details but the Los Angeles Times gave this account of the abduction:

Kenneth Young, son of Herbert J. Young, 35, was taken from his bedroom early Monday. A typewritten note on the boy's bed was addressed "to the master" and demanded $250,000 ransom to be delivered Wednesday.

Authorities did not immediately disclose the boy's disappearance. The note had told Young, "Don't call the police." Young called Beverly Hills police Monday morning.

The boy would be returned Sunday if ransom was paid, the note said.

Police said Kenneth was probably taken by a person who entered the house by an outside staircase and a second - floor sliding glass door near the boy's bedroom.

The note reportedly told Young to await a telephone call Wednesday, take the money to a service station in nearby Westwood, then wait for another telephone call.

Bill Asks End Of Slow Count In Ohio Vote

Requires Election Boards To Post Results Quickly

COLUMBUS, Ohio (AP) — A bill designed to end Ohio's reputation as a "slow count" state on election nights was called to the House floor today but faced bumpy if not rough sledding.

Rep. Robert I. Evans R-31 Coshocton sponsored the bill which would require election boards to post results of races for president, vice president, governor and U.S. congressman outside polling places as soon as tabulated.

The two major wire services and three nationwide television-broadcast networks comprising the News Election Service supported the measure along with Secretary of State Ted W. Brown.

But some members of the House Government Operations committee attacked it bitterly on grounds it is "special interest" legislation and that fast counting of votes in Midwest and Eastern states might influence balloting on the West Coast where results would be coming in while polls still were open.

Rep Carl B. Stokes D-44 Cleveland, Cuyahoga was among committee opponents and he and other House members said they planned to carry their fight to the House floor. Members from both parties expressed opposition and support so the bill appeared to be one that would live or die on the merits of debate.

As the House prepared for a

Shafer, Rhodes Asked To Oppose Canal Plan

WASHINGTON (AP) — Govs. Raymond P. Shafer of Pennsylvania and James Rhodes of Ohio have been asked to oppose construction of the proposed Lake Erie—Ohio River canal.

Rep. Joseph P. Vigorito, D—Pa., said Wednesday the two governors have the final report of the chief of the Army Engineers and 90 days to comment before returning it to Washington.

He asked the governors to oppose the project, which will go to Congress after their action.

6% Surtax On Incomes July 1 'Dim'

'Very Much Alive,' Officials Say For Last Half Of Year

WASHINGTON (AP) — The administration appears quietly to be backing away from a July 1 effective date for its proposed 6 per cent surtax on most income taxes.

But thesurtax itself, key officials insisted today, is still very much alive and will be needed during the second half of the year to help stem inflation in what they predict will be an expanding economy.

The critical question now is in the timing.

Although the July 1 effective date is still considered a possibility by the administration — "It's still in the ballpark," one analyst said — the chances reportedly are good that it might eventually be abandoned officially.

Reasons are the opposition in Congress to the surtax itself and the current sluggishness in the economy, which is deeper than government economists anticipated in January when the surtax was proposed.

Officials want the latest economic figures in hand when they approach Congress later this spring with their formal surtax proposal.

By June, when the House Ways and Means Committee has indicated it will hold hearings on the surtax, government economists hope they will have the economic facts to support their plan.

But the general coolness of Congress could prompt a later effective date — Sept. 1 or Oct. 1 for example.

Administration sources said a decision on details for the surtax — and exactly when it might become effective — won't be made for at least another month.

By that time all the first-quarter figures will be available, as will preliminary estimates for April. This should also give some indication of possible later trends in the economy.

Some government experts hope, however, that the beginnings of an upturn might be reflected in statistics yet to be published for March and April.

A rise in retail sales in both March and April is foreseen by some government analysts.

2 U.S. Planes Blown Up

Reds Strike Near Buffer Zone And Free Prisoners

SAIGON (AP) — Communist troops unleashed a series of attacks around the provincial capital of Quang Tri just south of the 17th Parallel early today blowing up trucks and freeing a number of prisoners of war in a forward camp.

The attacks between midnight and dawn ringed Quang Tri City about 12 miles south of the demilitarized zone. Initial battle reports were sketchy.

Most of the posts hit were South Vietnamese.

Howeper, two light U.S. observation planes were badly shot up at one small airstrip. At another post eight trucks were burned and at another four jeeps and three trucks were damaged.

The attacks fell on an artillery camp, the forward prison camp and a U.S. advisory camp attached to a regimental command post of the South Vietnamese 1st Division. Several mortar attacks were reported at the same time.

More Communists made sporadic attacks on several village teams of South Vietnamese revolutionary development workers, who have become prime Communist targets as a result of advances in the government's pacification program.

South Vietnamese headquarters said that at least 47 Communists were killed in the attacks. South Vietnamese casualties were described as light, but the losses were evidently more serious than reflected in the official report.

There was no immediate indication how many war prisoners had been freed. The camp was not identified in first reports but was probably a forward clearing camp for initial interrogation of prisoners. If so, it normally would contain no more than a dozen or so prisoners.

Quang Tri Province, defended by about a division of U.S. Marines plus the Vietnamese 1st Division and militia troops, is a prime Red invasion target.

Police Seize Youths With Explosives

Vice President To Reaffirm U.S. Support For City

BERLIN (AP) — Vice President Hubert H. Humphrey came to West Berlin today despite a police roundup of a group of youthful extremists fashioning explosives devices to disturb his visit.

The vice president flew here to reaffirm U.S. support for the Communist-surrounded city after conferences with government officials in Bonn. He said the talks convinced him the friendship between the United States and West Germany is strong and secure.

Shortly before Humphrey's arrival, West Berlin police announced that they had released three girls in the group arrested because their connection with the conspirators "could not be proved with certainty.

The announcement said 10 young persons had been arrested instead of 11 as previously stated.

Police said they seized the plotters Wednesday night as they were preparing explosive bombs and plastic bags filled with chemicals for an assault on the vice president. The youths' attorney said they told him they were preparing smoke bombs.

It was reported that some of those arrested were members of the leftist German Socialist Students Group. An informed non-German source said the youths were disciples of Red China's Mao Tse-tung.

Authorities said that a preliminary examination by police specialists showed that the confiscated chemicals "in the right mixture were suitable for the production of generally dangerous explosives."

A spokesman added, however, that an "exact analysis still had not been determined."

"You could conclude that they could have been used for very dangerous throwing objects," he added.

One source said the explosives were to be thrown along Humphrey's route and into the city hall during his visit.

Faces Cross-Examination

Nurse Identifies Speck As Slayer

PEORIA, Ill. (AP) — Public defender Gerald Getty is basing his defense of Richard Speck on an attempt to destroy Corazon Amurao's identification of the 25-year-old seaman as the killer of eight nurses.

Miss Amurao, 24, a nurse from the Philippines, faces cross-examination by Getty on her account of how the nurses were slain.

The young woman was on the witness stand for four hours Wednesday. She sobbed into her white handkerchief twice but otherwise her face was expressionless. Her voice was mostly calm as she told of the night in which her eight roommates were strangled and stabbed on the South Side of Chicago.

The confrontation between the survivor of the July 14 mass killing and Speck in the murder trial came after prosecutor William Martin asked, "Did you wake up at any time Wednesday night, July 13?"

"I heard a knock in our bedroom," the witness said. "It was about four knocks. I went to the door and I unlocked it and I started to open it and at once there's someone pushing the door.

"I saw a man." At this point the 4-foot-10, black-haired nurse cried.

"If you see that same man in the courtroom today, will you please step down and point him out," Martin asked.

The girl walked deliberately from the witness stand to the defense table. She raised her arm and pointed one finger at Speck.

"This is the man!" she said.

First Reading Given Meters At Wellsville

First reading was given an ordinance establishing higher meter parking rates when Wellsville Council met in special session Wednesday night.

The legislation calls for 5 cents for one hour and 10 cents for two and eliminates pennies in the meters.

The original motion Tuesday night by Councilman Jack Call asked that fines be raised from 50 cents to $1 for the first 24 hours following the violation and $2 thereafter.

The city's existing ordinance already provides such penalties, so the meter rate change was the only amendments necessary.

Second reading was given to the city 1967 appropriations ordinance.

The legislators will meet again tonight for a third reading on the appropriations bill.

The meter adjustments will be given a second reading, with the final reading scheduled April 17.

Representatives of the Wellsville Area Chamber of Commerce attended last night to discuss the meter and fine situation.

Most Serious Fight Since Armistice

American Soldiers Clash With North Korea Patrol

SEOUL, South Korea (AP) — American soldiers manning a guard post in the Korean demilitarized zone clashed with a North Korean patrol Wednesday afternoon in one of the most serious gunfights since the 1953 Korean armistice. The U.N. command said three North Koreans were killed, but North Korea claimed it had five dead and one wounded.

The U.N. command said there were no U.S. casualties.

North Korea's Central News Agency said the North Koreans were civil policemen on "routine duty" in the north portion of the demilitarized zone 1.2 miles east of Panmunjom.

The U.N. command said the North Koreans crossed the armistice line into the U.N. portion of the demilitarized zone, and after the American guards spotted them there was an exchange of fire "including fire from North Korean concealed positions across the military demarcation line," which divides the demilitarized zone.

An informed source said a 15-minute gunfight took place after a U.S. patrol challenged the group of seven or eight North Koreans and the Communists opened fire.

The clash occurred about 165 feet south of the military demarcation line and about 35 miles northwest of Seoul, the source added.

The Communist account claimed "the U.S. side fired all of a sudden hundreds of machine-gun and automatic-rifle shots" into the Communist side of the truce zone.

Grand Jurors Set To Report

Visit To County Jail Due Later Today

LISBON — The Columbiana County grand jury, sworn in Tuesday, will report to Judge Raymond S. Buzzard in Common Pleas Court today on its investigation of some 30 cases.

Jurors examined seven witnesses in three cases this morning.

The panel of 10 women and five men will inspect the County Jail with Sheriff Russell J. Van Fossan before preparing the report.

Prosecuting Atty. J. Warren Bettis and Assistant James D. Primm Jr. called 27 witnesses in 15 cases Wednesday.

Last Of W. Va. Escapees Nabbed

Convict's Capture Leads To Arrest Of Second Man

COLUMBUS, Ohio (AP)— Capture of an escaped convict Wednesday after the holdup of a savings and loan company office has led to the arrest of a second man now accused of receiving and concealing stolen property.

After police nabbed George Hosey, 34, last of a quartet of escaped convicts from West Virginia Penitentiary still at large, a man booked as Robert Austin, 32, was picked up at a bus station in Wheeling, W. Va.

Hosey was accused by police of robbing the Scioto Savings Association here of about $2,000. Police said he fled to the Greyhound bus terminal and was about to board a bus when he was stopped by Austin who apparently had heard of the holdup and description of the robber. Officers said Austin reportedly identified himself as a police officer, telling Hosey he was under arrest.

However, when Hosey pulled a gun Austin said he was not a policeman, and then, police said, Hosey gave the man a fist full of bills from a bag he was carrying and fled in a taxicab.

Austin took a bus to Wheeling. Officers said he had about $156 on him. Columbus police estimated there was about $400 of the holdup loot missing after Hosey's arrest.

Austin waived extradition to Ohio and was being returned to Columbus on a warrant charging him with receiving and concealing stolen property.

Hosey had been sought since last Friday when he and three other convicts escaped from a work detail at a northeast West Virginia state hospital.

Last Of W. Va. Escapees Nabbed

Convict's Capture Leads To Arrest Of Second Man

COLUMBUS, Ohio (AP)— Capture of an escaped convict Wednesday after the holdup of a savings and loan company office has led to the arrest of a second man now accused of receiving and concealing stolen property.

After police nabbed George Hosey, 34, last of a quartet of escaped convicts from West Virginia Penitentiary still at large, a man booked as Robert Austin, 32, was picked up at a bus station in Wheeling, W. Va.

Hosey was accused by police of robbing the Scioto Savings Association here of about $2,000. Police said he fled to the Greyhound bus terminal and was about to board a bus when he was stopped by Austin who apparently had heard of the hold up and description of the robber. Officers said Austin reportedly identified himself as a police officer, telling Hosey he was under arrest.

However, when Hosey pulled a gun Austin said he was not a policeman, and then, police said, Hosey gave the man a fist full of bills from a bag he was carrying and fled in a taxicab.

Austin took a bus to Wheeling. Officers said he had about $156 on him. Columbus police estimated there was about $400 of the holdup loot missing after Hosey's arrest.

Austin waived extradition to Ohio and was being returned to Columbus on a warrant charging him with receiving and concealing stolen property.

Hosey had been sought since last Friday when he and three other convicts escaped from a work detail at a northeast West Virginia state hospital.

First Reading Given Meters At Wellsville

First reading was given an ordinance establishing higher meter parking rates when Wellsville Council met in special session Wednesday night.

The legislation calls for 5 cents for one hour and 10 cents for two and eliminates pennies in the meters.

The original motion Tuesday night by Councilman Jack Call asked that fines be raised from 50 cents to $1 for the first 24 hours following the violation and $2 thereafter.

The city's existing ordinance already provides such penalties, so the meter rate change was the only amendments necessary.

Second reading was given to the city 1967 appropriations ordinance.

The legislators will meet again tonight for a third reading on the appropriations bill.

The meter adjustments will be given a second reading, with the final reading scheduled April 17.

Representatives of the Wellsville Area Chamber of Commerce attended last night to discuss the meter and fine situation.

Co-op Store Sets 'Grand Opening'

LISBON — The Columbiana County Farm Bureau Cooperative Association launched the grand opening of its new Town and Country Store, 232 S. Market St., today. The "opening" will continue Friday and Saturday.

Grand opening hours were 9 a.m. to 9 p.m. today and Friday and 9 a.m. to 5 p.m. Saturday.

Manager Gene Courtney said the store, located in front of the co-op's grain mill, cost approximately $25,000. It will handle all farm supplies except heavy machinery. The farm bureau employs 13 at the Lisbon co-op, which also has a bulk fuel oil plant on Route 45 north of here.

Courtney said the cooperative did $628,000 worth of business last year to show a profit for the first time in 13 years and receipts for the first three months this year are ahead of those for the first quarter in 1966.

Women of the Farm Bureau Federation will serve refreshments at open house.

Slaying Modern Dragons

The United States is planning to destroy some of its nuclear weapons this summer.

Test will be conducted at scattered Atomic Energy Commission agencies on methods of removing fissionable material from weapons and making it available for peaceful purposes.

This is in keeping with the U.S. proposal to end the nuclear arms race. The United States has suggested a cutoff date for production on fissionable materials for weapons.

If an agreement were reached by the nuclear powers to halt the race, they would need to know how to transfer fissionable material from arms to peaceful uses. Nations hungry for power and prestige will not give up the idea of ultimate nuclear superiority easily. This makes the hope of harnessing the awesome force for peaceful purposes rather remote; but it still is in the realm of possibility.

It is a worthy goal. Achievement could come only after the dragons of greed and mistrust had been slain.

By the summer test program, the United States is trying to show the world the proposal is on the level.

It probably will go unheeded; but that will not stop America from continuing the search while keeping its flank protected by a ready nuclear arsenal.

The United States will not be deterred from a course of finding other than destructive uses for nuclear energy.

The nuclear power plants already in production and those on the drawing board as replacements for present energy sources are evidence of this pursuit.

Gun Control Law Misfire

Firearm control measures and weapon registration proposals continue to meet defeat on a state and federal level.

But the illusion that years of squabbling over gun control bills has been in vain is misleading.

A few indisputable facts have evolved and should serve as a springboard for further action.

Some of the conclusions sifted from the thousands of words bandied about in debate include:

Registration of all firearms would impose a hardship on law-abiding citizens and certainly not keep them out of the hands of hoodlums and criminals.

A tight control measure would spawn an underground gun traffic business; another profitable venture outside the law.

Citizens cling to the constitutional right to bear arms despite its conspicuous inapplicability in a nuclear world.

Control of criminal handling of firearms would be helpful in fighting crime.

Armed with these facts, it should not be excessively difficult for lawmakers to come up with a workable plan to get at the heart of the problem.

The latest Ohio casualty is a proposal by Rep. Carl Stokes of Cuyahoga County asking registration of all weapons capable of being concealed on the person. It died in committee. Past experience has shown this type of bill is doomed from the outlet.

Why not enact legislation aimed directly at the criminal and avoid conflict with non-criminals

It does not seem unreasonable to set severe penalties for persons using weapons in attempting or committing crimes.

Strict enforcement of laws with teeth would be one quick means of instituting some control over use of dangerous weapons.

Waiting For Nader

Surmises about electric cars fascinate us.

Many of us who must commute between our jobs and our home are enthusiastic about a vehicle we could park easily, operate cheaply and be able to rationalize when we go over the housekeeping books.

But if electric cars come into existence, what will Ralph Nader, the expert on automotive safety, say? Or will the makers seek and obtain some kind of Nader-rating in advance?

Never say Nay, say Nader, as the big cubic displacement brains in Detroit must be thinking while auto sales slump in the aftermath of Nader's great discovery that what can happen to the occupant of an automobile in an accident shouldn't happen to a custard pie in a clothes dryer.

According to Nader and the federalists freshly concerned about our automotive welfare, it isn't safe to be in an auto accident. We knew that all along.

It's why most of us try with all the power of our being to keep from being in auto accidents. When we think what Ralph Nader would have had to say about the horses and buggies that — preceded autos — oh brother! Wham! Crunch! Whinny! Snort! Kick! and there went your mother-in-law into the briar patch: Poor woman.

Letters To The Editor

EDITOR OF THE REVIEW:

I would like to correct some of the wild and exaggerated statements made by our incumbent state representative in a letter in which he asked for support of the Ohio Bond Commission plan on the May 2 ballot.

He asserted that $1,780,000 for higher education has been "reincumbered," whatever that means. The fact remains that Columbiana County still has not received a dime from the state. He also stated that $100,000 has been "reincumbered" for help in the County Airport project. This is another instance in which we have not received a cent from the state.

If he had read the local papers, he would have known that the State Board of Regents has announced that if the bond commission does not pass there will be no money for either the Kent State Branch or the Columbiana County Community College. With this kind of representation — a man who does not know what is going on — is it any wonder that Columbiana County does not get anything, highways or anything else. They can string him along on promises.

The state spent a quarter of a million dollars for preliminary plans for a bridge across Lake Erie to Canada. I think this money would have been much more wisely spent to eliminate the "cow pasture" Route 30 across Columbiana County.

Our state representative says "he is on the firing line and knows what is going on." That's fine. I appreciate it that he is on the firing line—for a change. But the fact still remains that if Route 11 continues to be built at the present slow pace the present state representative will never live long enough to see it finished. Neither will I.

I am like old Harry Truman from Missouri. They will have to show me.

I don't think the public can be blackjacked into voting for the Ohio Bond Commission. They are promising everything, but the question will be: Will we really get anything?

Stop The Bombing

By Art Buchwald

It has not been publicized, but a highly emotional scene took place last week between British Prime Minister Harold Wilson and a member of Parliament.

The dispute was over Wilson's decision to bomb the Torrey Canyon, the wrecked tanker that was hung up on a reef off Land's End.

Art Buchwald

The M.P. had come out against the bombing and was called into Wilson's office for a serious chewing out. Wilson angrily told the M. P. that his speech about suspending the bombing of the Torrey Canyon had given aid and comfort to the oil that was still left in the stricken ship.

The M.P. retorted that on the contrary, by bombing the tanker, the prime minister was spreading the oil rather than containing it, and he was inviting wider and wider slicks all the time.

THE PRIME MINISTER told the M.P. that he had done everything possible to find some other solution to the tanker problem, but the oil wasn't responding. The prime minister said he was willing to stop the bombing if the oil in the tanker stopped infiltrating the beaches and coastline.

Wilson pointed out that he did not put the tanker on the reef, and if he had his choice he might never have put it there. But since it was there he had no option but to bomb it.

The prime minister produced a poll showing that 85 per cent of all the British people supported him in his war against the oil and many called for heavier air raids rather than a lessening of the bombing strikes.

The M.P. accused the prime minister of upping the terms for finding a peaceful settlement to the oil slicks.

Wilson retorted that he held off on the bombing for one full week, and the broken tanker used the time to put more oil on the beaches. He is said to have told the M.P. "I used every detergent I could think of, but it did no good. The only thing the oil responds to is napalm."

The M.P. said that the bombing, rather than weakening the oil slicks, has strengthened them, and the more the RAF bombed the tanker the more the oil escalated and polluted the beaches.

The prime minister, livid with rage, said that the oil was killing British birds and fishes and it had to be taught a lesson. "Any time the oil wants to stop heading for shore, we'll stop the bombing."

THE M. P. SAID that the Royal Air Force had an insatiable appetite and after it got finished bombing the Torrey Canyon it would demand other targets to bomb, including the refineries where the oil was being shipped.

Wilson said that as long as he was prime minister he would only permit the bombing of tankers hung on reefs.

The M. P. wanted to know if it was true that the prime minister intended to mine Cornwall Harbor.

"I must be allowed to keep all my options open," Wilson replied.

The prime minister also told the M. P. if he persisted in his attacks on the bombing, the M. P.'s political career would be finished in six months.

The M. P. denied a Time magazine story that he called the prime minister any names. Asked by reporters if he would oppose the prime minister in the 1968 elections, the M. P. replied, "It's too oily to say."

Rough Winds

By James Marlow

WASHINGTON

It was like holding a wet finger up in the air to see which way the wind was blowing when President Johnson sent Vice President Hubert H. Humphrey on a goodwill mission to Europe.

He found that some of the wind could have been catastrophic. For what almost happened to Humphrey might have turned out far worse than the roughing up Vice President Richard M. Nixon got on his Latin-American tour in 1958.

Johnson himself has not visited Europe as President. This caused some wondering about his concern for relations with the Allies, a relationship which has deteriorated a bit.

Since President John F. Kennedy, with even less time in the White House than Johnson, made two European trips, Johnson's staying at home was even more noticeable.

But Johnson has had the Vietnam war to handle the worry about and keep him busy. No doubt his official receptions would have been cordial — but perhaps not hearty, because of some dissatisfaction in Europe over the U. S. role in Vietnam.

JUST BECAUSE there is dissatisfaction there was no assurance that any Johnson trip through the streets of Europe would not be hectic, molested, or even violent.

And if Johnson were mistreated, or worse, this country's European relationship might be wrecked. So, as time passed, Johnson had a lot to think about before going abroad. Humphrey went.

He left March 26, visited one capital after another, had a more or less pleasant journey, argued with the British Parliament in private about Vietnam, handled himself well and got a few jeers.

He ran into some long-haired demonstrators in Holland, had his car pelted with eggs in Florence, but otherwise seemed to be coming through all right until Wednesday in West Berlin.

There the police announced they had seized 11 extremists involved in a bomb plot against "the life or health" of Humphrey on his scheduled visit to the city today.

The extremists didn't represent the German people, but they were a menace and there are probably bands of them in every city in Europe where Johnson might have gone if he, instead of Humphrey, had made this trip.

At this writing it isn't clear whether the group arrested in Berlin was anti-American because of Vietnam or anti-American because of some ideology or whether they were agents of some government set lose to cause chaos.

BUT THERE are so many nuts loose in the world the same thing might have happened here if the queen of England visited the United States or French President Charles de Gaulle came over.

Yet, this grisly possibility or the more nearly actual plot against Humphrey will probably not deter heads of state from traveling abroad.

That there will be a disaster from one of these visits eventually seems inevitable since violence and irresponsibility have become two chauffeurs of civilization.

When Nixon went to Latin America in 1958 he was the target of violent, allegedly Communist-inspired, anti-American demonstrations in Peru and Venezuela, and lesser outbursts by university students in Argentina, Uruguay, Paraguay, and Colombia.

At Caracas, Venezuela, mobs with rocks and sticks attacked Nixon's automobile, smashed its windows and tried to drag the vice president and his wife out of the car.

In 1960, President Dwight D. Eisenhower had to cancel a trip to Japan because of the anti-American riots there and threats of worse ones if he went.

Why Not Now?

By David Lawrence

'The 'Liberals' Are Silent

Furor was stirred by the "liberals" recently when it was discovered the Central Intelligence Agency was paying some expenses of student groups which, while abroad, obtained information concerning Communist operations in various countries.

But there is a strange silence when the House Committee on Un-American Activities reports to the public that "every major, large-scale demonstration against the war in Vietnam which has taken place in this country has had all-out Communist support."

Rep. Edwin E. Willis, D-La., chairman of the committee, goes even further as he describes the link between the Vietnam demonstrations in this country and the Soviet government. He declares:

"We must face the fact that certain activities are being carried out in this country by persons who are not dedicated to the principles of our form of government and who use the claim and mask of dissent for no other reason than to try to conceal the fact that their allegiance is to a power other than that of the United States government."

IN THE FOREWORD to the report, Chairman Willis does not mince words. He says deliberate deception "is not dissent, but conspiracy" and the "underhanded attempt to manipulate public opinion" in the United States and stifle full and open debate by pressure tactics is the true objective of Communist - inspired movements in this country.

The report gives the names of individuals connected with Communist - front organizations who have been the principal force behind the project known as "Vietnam Week," which is to begin April 8.

The committee says flatly the conference at which the "Vietnam Week' was planned "was instigated and dominated by the Communist Party USA and the W. E. Dubois Clubs of America."

It adds:

"Communists are playing dominant roles in both the Student Mobilization Committee and the Spring Mobilization Committee. Further, these two organizations have unified their efforts and are cooperating completely in their purpose of staging on April 15 the largest demonstrations against the war in Vietnam ever to take place in this country."

The House committee, moreover, doesn't hesitate to criticize Dr. Martin Luther King for his decisin to assist the movement.

The committee says:

"Dr. Martin Luther King's agreement to play a leading role in the April 15 demonstrations in New York City, and his freeing Rev. James Bevel from his key position in the Southern Christian Leadership Conference to head up the Spring Mobilization Committee, are evidence that the Communists have succeeded, at least partially, in implementing their strategy of fusing the Vietnam and civil rights issues in order to strengthen their chances of bringing about a reversal of U.S. policy in Vietnam."

CONGRESSIONAL committees are criticized from time to time delving into controversial questions. But there never has been such a persistent effort to abolish a committee as has been witnessed in the last 10 years in connection with the efforts of many Communist-inspired groups to bring about the abolition of the House Committee on un-American Activities.

Chairman Willis points out that there are many persons who are participating in the anti-Vietnam war demonstrations who do not really know that they are aiding the purposes of the world Communist movement. He says:

"As Justice Frankfurter indicated (in a 1961 decision of the Supreme Court) the Communists make it a practice to try to enlist, and seem to have great ability in enlisting, in support of their projects persons who would not give their support if they knew the full truth about them."

The committee report concludes that, if the instigators and organizers of "Vietnam Week" succeed in turning out large numbers of people for the demonstrations in New York and San Francisco, this can be attributed primarily to the Communists and will be an indication of their strength and the extent to which they are able "to influence and manipulate non-Communist Americans."

The extremists didn't represent the German people, but they were a menace and there are probably bands of them in every city in Europe where Johnson might have gone if he, instead of Humphrey, had made this trip.

At this writing it isn't clear whether the group arrested in Berlin was anti-American because of Vietnam or anti-American because of some ideology or whether they were agents of some government set lose to cause chaos.

BUT THERE are so many nuts loose in the world the same thing might have happened here if the queen of England visited the United States or French President Charles de Gaulle came over.

Yet, this grisly possibility or the more nearly actual plot against Humphrey will probably not deter heads of state from traveling abroad.

That there will be a disaster from one of these visits eventually seems inevitable since violence and irresponsibility have become two chauffeurs of civilization.

When Nixon went to Latin America in 1958 he was the target of violent, allegedly Communist-inspired, anti-American demonstrations in Peru and Venezuela, and lesser outbursts by university students in Argentina, Uruguay, Paraguay, and Colombia.

At Caracas, Venezuela, mobs with rocks and sticks attacked Nixon's automobile, smashed its windows and tried to drag the vice president and his wife out of the car.

In 1960, President Dwight D. Eisenhower had to cancel a trip to Japan because of the anti-American riots there and threats of worse ones if he went.

Why Not Now?

By David Lawrence

'The 'Liberals' Are Silent

Furor was stirred by the "liberals" recently when it was discovered the Central Intelligence Agency was paying some expenses of student groups which, while abroad, obtained information concerning Communist operations in various countries.

But there is a strange silence when the House Committee on Un-American Activities reports to the public that "every major, large-scale demonstration against the war in Vietnam which has taken place in this country has had all-out Communist support."

Rep. Edwin E. Willis, D-La., chairman of the committee, goes even further as he describes the link between the Vietnam demonstrations in this country and the Soviet government. He declares:

"We must face the fact that certain activities are being carried out in this country by persons who are not dedicated to the principles of our form of government and who use the claim and mask of dissent for no other reason than to try to conceal the fact that their allegiance is to a power other than that of the United States government."

IN THE FOREWORD to the report, Chairman Willis does not mince words. He says deliberate deception "is not dissent, but conspiracy" and the "underhanded attempt to manipulate public opinion" in the United States and stifle full and open debate by pressure tactics is the true objective of Communist-inspired movements in this country.

The report gives the names of individuals connected with Communist-front organizations who have been the principal force behind the project known as "Vietnam Week," which is to begin April 8.

The committee says flatly the conference at which the "Vietnam Week' was planned 'was instigated and dominated by the Communist Party USA and the W. E. Dubois Clubs of America."

It adds:

"Communists are playing dominant roles in both the Student Mobilization Committee and the Spring Mobilization Committee. Further, these two organizations have unified their efforts and are cooperating completely in their purpose of staging on April 15 the largest demonstrations against the war in Vietnam ever to take place in this country."

The House committee, moreover, doesn't hesitate to criticize Dr. Martin Luther King for his decisin to assist the movement.

The committee says:

"Dr. Martin Luther King's agreement to play a leading role in the April 15 demonstrations in New York City, and his freeing Rev. James Bevel from his key position in the Southern Christian Leadership Conference to head up the Spring Mobilization Committee, are evidence that the Communists have succeeded, at least partially, in implementing their strategy of fusing the Vietnam and civil rights issues in order to strengthen their chances of bringing about a reversal of U.S. policy in Vietnam."

CONGRESSIONAL committees are criticized from time to time delving into controversial questions. But there never has been such a persistent effort to abolish a committee as has been witnessed in the last 10 years in connection with the efforts of many Communist-inspired groups to bring about the abolition of the House Committee on un-American Activities.

Chairman Willis points out that there are many persons who are participating in the anti-Vietnam war demonstrations who do not really know that they are aiding the purposes of the world Communist movement. He says:

"As Justice Frankfurter indicated (in a 1961 decision of the Supreme Court) the Communists make it a practice to try to enlist, and seem to have great ability in enlisting, in support of their projects persons who would not give their support if they knew the full truth about them."

The committee report concludes that, if the instigators and organizers of "Vietnam Week" succeed in turning out large numbers of people for the demonstrations in New York and San Francisco, this can be attributed primarily to the Communists and will be an indication of their strength and the extent to which they are able "to influence and manipulate non-Communist Americans."

Observance Set By Conservation Group In County

LISBON — The Columbiana County Soil and Water Conservation District will sponsor Soil Stewardship observance the week of April 30-May 7.

Dawson Irey of Lisbon R. D. 4, chairman of the board of supervisors, said the week is set aside "to express gratitude to God for his gifts of soil and all the bountiful resources associated with it."

Irey said the theme, "Three-Quarters of Our Land," points up the fact that about 75 per cent of U.S. land is in private ownership. "We need to give special attention and thought to conserving and developing soil, water, timber and wildlife resources bestowed upon us by the Creator," he said.

The county office at 41 N. Park Ave. has booklets available to help clergymen set up programs for the observance of Soil Stewardship Week, or Rural Life Sunday as observed by 4-H clubs.

Also available at the office are free church bulletin folders and inserts and related literature for use on Soil Stewardship Sunday.

Teamsters' Contract Talks Resume Today

WASHINGTON (AP) — Teamsters Union locals indicate growing restlessness on this sixth day since their contract with the nation's truckers expired.

Locals in many cities reportedly scheduled meetings for the same hour today that union and management negotiators were to return with federal mediators to the bargaining table in an effort to avoid the nation's first countrywide trucking tieup.

Talks were to resume at 10 a.m.

The locals have already given an overwhelming strike call authorization to the negotiators. There were indications some Teamsters leaders feared they might not be able to hold members in check after the locals' meetings.

Chief federal mediator William E. Simkin met with both sides Wednesday and prevailed upon them to resume talks today without a strike call.

Officers Jail Man As Third Theft Suspect

Robert (Buddy) Shroades, 20, of Glenmoor was taken into custody Wednesday night by police and sheriff's deputies as the third suspect in the strongarm robbery of an elderly East Liverpool man Tuesday night in Green Ln.

Shroades is being held in City Jail in default of a $1,000 bond to await a hearing Monday before Municipal Judge Samuel M. Chertoff on a charge that he robbed Harold Frazier of 1185 Lisbon St. "by force and violence."

Frazier at first told police the stolen wallet contained $150. The amount was scaled down to $125 Wednesday. But police said today the actual loss was $109.

Teamsters' Contract Talks Resume Today

WASHINGTON (AP) — Teamsters Union locals indicate growing restlessness on this sixth day since their contract with the nation's truckers expired.

Locals in many cities reportedly scheduled meetings for the same hour today that union and management negotiators were to return with federal mediators to the bargaining table in an effort to avoid the nation's first countrywide trucking tieup.

Talks were to resume at 10 a.m.

The locals have already given an overwhelming strike call authorization to the negotiators. There were indications some Teamsters leaders feared they might not be able to hold members in check after the locals' meetings.

Chief federal mediator William E. Simkin met with both sides Wednesday and prevailed upon them to resume talks today without a strike call.

Man Injured Seriously In Cycle Wreck

A Leetonia man was injured seriously when the motorcycle he was riding rammed the side of an Ohio Highway Patrol cruiser operated by Sgt. R. J. Rizzo of the Lisbon barracks Wednesday at 5:20 p. m. on Route 344 at Leetonia.

The patrol said the 1967 motorcycle, operated by Gerald Lee Kleinknecht, 21, hit the cruiser on a curve. Kleinknecht was traveling at an excessive rate of speed when he lost control, went left of center and struck the left side of the 1956 cruiser.

Both vehicles were heavily damaged. Kleinknecht suffered the partial amputation of his foot. He and Sgt. Rizzo, 40, both were taken to Salem City Hospital.

Rizzo was treated for an injury of the left shoulder. Kleinknecht was admitted and is in "fair" condition today.

In another area mishap yesterday, Joseph Hryckowian, 42, of Baden, Pa., suffered moderate injuries when his car rammed the rear of a tractor-trailer rig operated by Kenneth Feyka, 23, of Darlington at 12:15 p.m. on Route 30, a mile north of the East Liverpool limits.

Both were northbound on the four-lane highway when Hryckowian pulled from the left lane to the right to pass another vehicle. His car rammed beneath the rig and was dragged some 300 feet after impact.

Hryckowian was cited for failure to stop in the assured clear distance and is to appear in East Liverpool Municipal Court Monday at 9 a. m. He is being held at City Jail in lieu of bond. His car was demolished.

Communists Oppose LBJ's Summit Talks

MONTEVIDEO, Uruguay (AP)— Acting on orders from Havana, the Uruguayan Communists are waging a noisy propaganda campaign against President Johnson and his summit conference with Latin-American leaders next week.

Tight security measures are expected to restrict the Red activity to a lot of shouting well away from the conference April 12-14 at the coastal resort of Punta del Este.

Odd Facts

In many streams much of the flow represents waste water returned from cities and industries. In periods of lowest flow, such as late summer, waste waters may constitute almost the entire flow at some points.

Almost 29,000 earth tanks, reservoirs and artificial ponds have been built in Ohio to provide water for recreation, fire protection, and livestock use.

Ohio livestock uses close to 50 million gallons of water per day, almost as much as the city of Columbus.

Man Injured Seriously In Cycle Wreck

A Leetonia man was injured seriously when the motorcycle he was riding rammed the side of an Ohio Highway Patrol cruiser operated by Sgt. R. J. Rizzo of the Lisbon barracks Wednesday at 5:20 p. m. on Route 344 at Leetonia.

The patrol said the 1967 motorcycle, operated by Gerald Lee Kleinknecht, 21, hit the cruiser on a curve. Kleinknecht was traveling at an excessive rate of speed when he lost control, went left of center and struck the left side of the 1956 cruiser.

Both vehicles were heavily damaged. Kleinknecht suffered the partial amputation of his foot. He and Sgt. Rizzo, 40, both were taken to Salem City Hospital.

Rizzo was treated for an injury of the left shoulder. Kleinknecht was admitted and is in "fair" condition today.

In another area mishap yesterday, Joseph Hryckowian, 42, of Baden, Pa., suffered moderate injuries when his car rammed the rear of a tractor-trailer rig operated by Kenneth Feyka, 23, of Darlington at 12:15 p.m. on Route 30, a mile north of the East Liverpool limits.

Both were northbound on the four-lane highway when Hryckowian pulled from the left lane to the right to pass another vehicle. His car rammed beneath the rig and was dragged some 300 feet after impact.

Hryckowian was cited for failure to stop in the assured clear distance and is to appear in East Liverpool Municipal Court Monday at 9 a. m. He is being held at City Jail in lieu of bond. His car was demolished.

Communists Oppose LBJ's Summit Talks

MONTEVIDEO, Uruguay (AP)— Acting on orders from Havana, the Uruguayan Communists are waging a noisy propaganda campaign against President Johnson and his summit conference with Latin-American leaders next week.

Tight security measures are expected to restrict the Red activity to a lot of shouting well away from the conference April 12-14 at the coastal resort of Punta del Este.

Odd Facts

In many streams much of the flow represents waste water returned from cities and industries. In periods of lowest flow, such as late summer, waste waters may constitute almost the entire flow at some points.

Almost 29,000 earth tanks, reservoirs and artificial ponds have been built in Ohio to provide water for recreation, fire protection, and livestock use.

Ohio livestock uses close to 50 million gallons of water per day, almost as much as the city of Columbus.

Ann Landers

ANSWERS YOUR PROBLEMS

Dear Ann Landers: My husband and I are baffled. We don't know what to think. Our son-in-law decided he needed a vacation from our daughter. They had been married only 11 months and weren't getting along too well.

I must admit she wasn't a very good wife. She couldn't manage on his income, borrowed from her father and me and nagged her husband constantly about insignificant things that should have been overlooked.

Our son-in-law went to Mexico by himself — to "think things over." Our daughter moved back into her room so she wouldn't be alone in their apartment.

This morning we received a telegram from our son-is-law saying he will not be back for several months, and he is divorcing our daughter for reasons of illness.

What does this sound like to you? — STUNNED PARENTS.

-:-

Dear Parents: It sounds like he is sick of her.

An Unbeliever

Dear Ann: I'm fed up and disgusted with people who say, "Honesty is the best policy."

Twice this week I was asked to give an honest opinion. Well, I gave an honest opinion and both times I got into terrible trouble.

I have made an enemy for life and I was kicked out of English class for the rest of the term. In our school when you get kicked out of class you flunk the course and have to take it over again next semester.

You hear all these high-sounding phrases about honesty being the best policy, but I have learned first-hand that it doesn't pay. A person is much better off to lie and stay out of trouble. So why don't you come right out and admit it since you pride yourself on giving good advice? — TRUTH IS TROUBLE.

-:-

Dear Trouble: I notice that you did not provide a single detail of the incidents which brought forth your sterling qualities and landed you in trouble.

Many people delight in tearing friends to pieces, leaving not a shred of dignity and they call the butchery "being frank" or "simple honesty."

Yes, it pays to be honest, but it does not pay to be punitive and brutal. And this is probably your problem.

Husband Holders

Dear Ann: I wish those unhappy wives who have lost their husbands to "The Other Woman" would stop calling them "Tramps."

True, some one-night stands deserve the name, but the majority of "Other Women" are intelligent, attractive and very much in love.

Sex alone will not hold a marriage together, nor will it sustain an affair. "The Other Woman' provides something the wife doesn't, otherwise she would not be in the picture. It might be compassion, understanding, adoration, or just old-fashioned appreciation for his presence.

Maybe he just wants to be around someone who doesn't nag him, or belittle him, or make him feel inadequate.

So, wives, take stock of yourselves. If you want to keep your husbands happy, don't give them any excuses to roam. There's an old saying that if you feed a man well at home he won't go to restaurants. — KITTEN.

-:-

Dear Kitten: Some men prefer restaurants to home cooking just because it's different. The rest of your letter, however, makes a great deal of sense. Thank you for writing.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a stamped, self-addressed envelope.

Delaying Mails Charged

Postal Department Fined Nine Railroads $127,500

By STEPHEN M. AUG

WASHINGTON (AP) — The Post Office Department has fined nine railroads $127,500 since Jan. 1, charging them with delaying the mails, it was learned today.

The fines range from $2,500 against the Chicago & Eastern Illinois to $35,000 against the New York Central. The latest fine was $20,000 against the Chicago, Burlington & Quincy.

A Post Office official said the fines were imposed after the department decided to "take a closer look at train schedules" in an effort to find out whether late arriving passenger trains were slowing mail deliveries.

The official was unable to say how the current fines compare with those imposed in past years because until Jan. 1 the railroads were fined by regional offices and records were not kept in Washington. The operation now is handled at Post Office headquarters.

Thirty-two railroad systems carry U.S. mail. Nearly all the mail the railroads carry is hauled on passenger trains. Railroads have complained recently that the disappearance of passenger train service has been the fault of the Post Office.

The railroads charge that the Post Office has been diverting mail from the trains and transferring it to trucks. The lines say that revenue from mail often means the difference between profit and loss in the operation of some passenger trains.

But the Post Office says the railroads have discontinued passenger trains, leaving it no alternative but to use highway transportation for mail. The department charges that the railroads in many cases have asked the Post Office to remove mail from trains.

Other fines levied since January are: Chicago, Rock Island & Pacific, $10,000; Louisville & Nashville, $5,000. Missouri Pacific $15,000; Norfolk & Western, $10,000; St. Louis-San Francisco, $5,000, and Southern Pacific, $25,000.

The department has the power to impose fines against railroads when mail - carrying trains do not meet their posted schedules. The department considers a train late when it is 15 or more minutes tardy.

In the Burlington case, the Post Office notified the line Feb. 10 that its trains had been arriving late for several months and that if the record did not improve within the next four weeks, a fine would be imposed.

The department then made a survey which showed that 21 of 58 Burlington trains carrying mail arrived late an average of 54 per cent of the time. The other 37 were late 11 per cent of the time.

15 Firemen Hurt In Fire

CINCINNATI (AP) — A five-alarm fire in the basement of a downtown restaurant caused thousands of dollars' damage and resulted in injuries to 17 persons, including 15 firemen.

The Mills Restaurant on East 4th Street had closed for the night when the fire started and all those still in the large cafeteria got out unhurt.

Two firemen, Capt. Robert Lautenbach, 58, and George Weller, 54, were reported in serious condition.

The other injured, including two utility company electricians were not seriously hurt. They suffered smoke inhalation and cuts from flying glass.

Several rumbling explosions swept through the basement and up the elevator shafts of the 11-story Mills building before workmen cut through the sidewalk and shut off the gas. After that firemen quickly brought the blaze under control.

The fire gave off much smoke but flames never broke through the tile floor of the restaurant.

Fire Chief Bert Lugannani said a gas leak may have started the fire. Exact cause remained under investigation.

Bob Free, a photographer for the Cincinnati Enquirer, narrowly escaped injury from one of the explosions.

"I was standing at the side door. . ." Free recounted. "Just then I saw a huge orange bubble welling out of the elevator shaft. I wheeled and started running and got to the barricades (at a nearby construction site).

"I looked back and saw that big glass windows had blown out into the street and Bob Oats, a fire company engineer who had stayed at his post, was down in the street. His leg was cut pretty bad, it looked to me."

Hays Says U.S. People Fed Up With Aid Burden

WASHINGTON (AP) — "The American people are fed up" with the burden of foreign aid, Rep. Wayne L. Hays, D-Ohio, said Wednesday in expressing the belief that he can successfully initiate a heavy cut in U.S. Agency for International Development (AID) funds.

Hays' critical statements came during questioning of AID Administrator William S. Gaud in a House Foreign Affairs Committee hearing, the Administration's first plea for next year's foreign aid program.

Hays said Americans are "tired of feeding everybody" and in particular mentioned India.

He said he had it from a good source that the Senate plans to wait to see what the House bill authorizes and then "start cutting it up from there."

ANSWERS YOUR PROBLEMS

Dear Ann Landers: My husband and I are baffled. We don't know what to think. Our son-in-law decided he needed a vacation from our daughter. They had been married only 11 months and weren't getting along too well.

I must admit she wasn't a very good wife. She couldn't manage on his income, borrowed from her father and me and nagged her husband constantly about insignificant things that should have been overlooked.

Our son-in-law went to Mexico by himself — to "think things over." Our daughter moved back into her room so she wouldn't be alone in their apartment.

This morning we received a telegram from our son-is-law saying he will not be back for several months, and he is divorcing our daughter for reasons of illness.

What does this sound like to you? — STUNNED PARENTS.

-:-

Dear Parents: It sounds like he is sick of her.

An Unbeliever

Dear Ann: I'm fed up and disgusted with people who say, "Honesty is the best policy."

Twice this week I was asked to give an honest opinion. Well, I gave an honest opinion and both times I got into terrible trouble.

I have made an enemy for life and I was kicked out of English class for the rest of the term. In our school when you get kicked out of class you flunk the course and have to take it over again next semester.

You hear all these high-sounding phrases about honesty being the best policy, but I have learned first-hand that it doesn't pay. A person is much better off to lie and stay out of trouble. So why don't you come right out and admit it since you pride yourself on giving good advice? — TRUTH IS TROUBLE.

In Industry Project

State Help Eyed For Water Lines

The Industry Municipal Authority will seek a grant of $270,000 from the Urban Development Agency at Philadelphia in its program to extend borough water lines.

Don Luster, authority salesman, disclosed the plans during a progress report Wednesday night to Industry Council.

—:—

AUTHORITY members will meet Tuesday night at the Borough Building to prepare an application for the grant. Michael Baker Jr., Inc., of Rochester, borough engineer, has estimated the cost of the project at $719,000. The difference between that and the proposed grant would have to be made up by bonds, Luster said.

The grant, if approved, would provide funds to extend water lines up Barclay Hill Rd. to the borough line, out Engle Rd. to the line and from St. Christine's Church to Industry.

Luster stressed that it would take close to 90 per cent participation by customers in the benefitted areas to bear the cost of the program. He said that although he and the authority were encouraged after speaking with representatives of the agency, the success of the project depends on whether the grant is received and whether prospective customers will cooperate.

—:—

AN ALTERNATE plan would be to get water from Ohioville Borough at a cost of $122,000, which would not be supported by a federal grant.

Luster said even though the Industry borough's earlier plea for a federal grant to enlarge the water system was rejected it now is felt additional support is assured from certain officials at Harrisburg and Washington, D. C.

Luster said, the authority is "keeping its fingers crossed" in hope the picture will change shortly. He said Western Beaver High School is in desperate need of water, as are many residents of some parts of the borough.

William Ralph, chairman of the Community Planning Committee, asked Council to meet as a group with Solicitor Charles Barrickman April 14 at the Borough Building to go over the 701 Comprehensive Plan for the borough. He said the plan drawn up by the engineers show just what can be done in the borough as far as road improvement, recreation areas and other facets are concerned.

He said the planning committee already has made suggested changes and after Council does the same the resolution must be adopted at a public hearing.

—:—

MAYOR Steve Suchanec reminded the police department is observing safe driving week through next Monday and said warnings will be given motorists driving cars having defective muffler systems or lights and such.

The mayor said Patrolman Marko Ratkovich will continue as acting police chief during April, while Chief Ray Hendershot is recuperating from surgery.

The mayor reported 18 complaints and four accidents investigated, four arrests made and 2.154 miles logged.

He also reported that the State Highway Department has notified the Borough it will install a 24-inch pipe under Pine Grove Rd., near the intersection of Pine Grove and Upland Rds., to carry excess water from the area to the Ohioview Golf Course.

Earl J. Hineman, tax collector, said the owners of property containing an uncovered well and mine have been notified and steps are being taken to correct the condition. He reported that there is also supposedly an open well behind the Willows Motel at Industry. Councilmen will investigate.

Council instructed the solicitor to prepare an ordinance rezoning the 1.95-acre property owned by Erwin St. George on Paradise Hollow Rd. from residential to industrial. A public hearing on the matter was held at the Borough Building March 29, but no residents appeared to file objections to the re-zoning. St. George plans to enlarge an existing machine shop at the site.

Councilman Thomas Hanner of Ohio Ave., Industry was appointed to serve on the Board of Directors of the Beaver County Association of Boroughs.

Bills totaling $2,464 were approved for payment.

The next regular meeting will be May 3 at 6:30 p. m. at the Borough Building.

New Fire Alarm System Studied

A representative of the General Telephone Co., Larry Marburger, met with Franklin Township Volunteer Fire Department trustees Wednesday night to discuss the possibility of instaling a new alarm system.

Marburger, a communications consultant, said he will investigate the feasibility of creating a working system because the area is some distance from a central office.

Discussion was continued on plans for the annual Summitville-Franklin homecoming and parade June 24.

The department will be host to a meeting of the Columbiana County Firemen's Association April 19.

Forest Young presided.

The next regular meeting will be May 3.

In Industry Project

State Help Eyed For Water Lines

The Industry Municipal Authority will seek a grant of $270,000 from the Urban Development Agency at Philadelphia in its program to extend borough water lines.

Don Luster, authority salesman, disclosed the plans during a progress report Wednesday night to Industry Council.

—:—

AUTHORITY members will meet Tuesday night at the Borough Building to prepare an application for the grant. Michael Baker Jr., Inc., of Rochester, borough engineer, has estimated the cost of the project at $719,000. The difference between that and the proposed grant would have to be made up by bonds, Luster said.

The grant, if approved, would provide funds to extend water lines up Barclay Hill Rd. to the borough line, out Engle Rd. to the line and from St. Christine's Church to Industry.

Luster stressed that it would take close to 90 per cent participation by customers in the benefitted areas to bear the cost of the program. He said that although he and the authority were encouraged after speaking with representatives of the agency, the success of the project depends on whether the grant is received and whether prospective customers will cooperate.

—:—

AN ALTERNATE plan would be to get water from Ohioville Borough at a cost of $122,000, which would not be supported by a federal grant.

Luster said even though the Industry borough's earlier plea for a federal grant to enlarge the water system was rejected it now is felt additional support is assured from certain officials at Harrisburg and Washington, D. C.

Luster said, the authority is "keeping its fingers crossed" in hope the picture will change shortly. He said Western Beaver High School is in desperate need of water, as are many residents of some parts of the borough.

William Ralph, chairman of the Community Planning Committee, asked Council to meet as a group with Solicitor Charles Barrickman April 14 at the Borough Building to go over the 701 Comprehensive Plan for the borough. He said the plan drawn up by the engineers show just what can be done in the borough as far as road improvement, recreation areas and other facets are concerned.

He said the planning committee already has made suggested changes and after Council does the same the resolution must be adopted at a public hearing.

—:—

MAYOR Steve Suchanec reminded the police department is observing safe driving week through next Monday and said warnings will be given motorists driving cars having defective muffler systems or lights and such.

The mayor said Patrolman Marko Ratkovich will continue as acting police chief during April, while Chief Ray Hendershot is recuperating from surgery.

The mayor reported 18 complaints and four accidents investigated, four arrests made and 2.154 miles logged.

He also reported that the State Highway Department has notified the Borough it will install a 24-inch pipe under Pine Grove Rd., near the intersection of Pine Grove and Upland Rds., to carry excess water from the area to the Ohioview Golf Course.

Earl J. Hineman, tax collector, said the owners of property containing an uncovered well and mine have been notified and steps are being taken to correct the condition. He reported that there is also supposedly an open well behind the Willows Motel at Industry. Councilmen will investigate.

Council instructed the solicitor to prepare an ordinance rezoning the 1.95-acre property owned by Erwin St. George on Paradise Hollow Rd. from residential to industrial. A public hearing on the matter was held at the Borough Building March 29, but no residents appeared to file objections to the re-zoning. St. George plans to enlarge an existing machine shop at the site.

Councilman Thomas Hanner of Ohio Ave., Industry was appointed to serve on the Board of Directors of the Beaver County Association of Boroughs.

Bills totaling $2,464 were approved for payment.

The next regular meeting will be May 3 at 6:30 p. m. at the Borough Building.

Marburger, a communications consultant, said he will investigate the feasibility of creating a working system because the area is some distance from a central office.

Discussion was continued on plans for the annual Summitville-Franklin homecoming and parade June 24.

The department will be host to a meeting of the Columbiana County Firemen's Association April 19.

Forest Young presided.

3-Way Crash Injures Trio; Driver Jailed

A 48-year-old East Liverpool man was jailed on a charge of driving while under the influence of alcohol as the aftermath of a three-way crash Wednesday at 5:24 p. m. on Harvey Ave. near the state line that injured a local woman and her 3-year-old daughter and a Beaver man, police reported.

The crash involved a 1958 model car driven by Norman McCoy of 403 E. 3rd St., who was cited by the investigating officers; a 1964 sedan operated by Joseph E. Hague, 22, of 341 Park St., Beaver, and a 1962 sedan driven by Mrs. Joan Ruth McNicol, 31, of 1519 St. Clair Ave.

Mrs. McNicol was treated at City Hospital for contusions of the upper lip and the nose. Her daughter, Terri, 3, suffered contusions of the right knee and Hague was treated for contusions and abrasions of both knees.

At 5:36 a. m. today, McCoy complained to police that he was suffering chest pains as a result of the accident. He was taken from jail to the hospital, where medication was administered, and was to return later this morning for X-rays for possible fractures of the ribs, police said.

Hague told police his eastbound car was halted because a truck was blocking the street. He said he saw McCoy's car approaching from the east on the wrong side of the street. Hague said he believed at first that McCoy intended to park on the south side of Harvey Ave., but the car continued, striking the front of the Hague car.

Mrs. McNicol's auto was behind Hague's car, officers said. it was struck when Hague's auto was driven backward by the collision with McCoy's car. McCoy told police he fell asleep.

The crash caused extensive damage to both the front and rear of Hague's car and the front of the McCoy and McNicol autos, police reported. Patrolman Karl Samples investigated.

Out Of The Air

By HAL HUMPHREY

In His New NBC Blazer

A conversation with ex-baseballer Sandy Koufax has convinced me that his debut as a sportscaster and pre-game host for NBC's Major League Baseball series (beginning April 15) is likely to ruin one of our grand old institutions — the baseball interview.

Hal Humphrey

Quite casually Sandy tossed in jawbreakers like "indigenous," "emulate" and "colloquialisms" while describing his interview plans for "The Sandy Koufax Show." Nothing like this has happened in sports since Gene Tunney admitted, after licking Jack Dempsey the first time, that he enjoyed reading Shakespeare.

-:-

IN ADDITION to using polysyllabic words, Sandy hangs a "g" on those ending in "ing," as in "hitting" or "trying." This will please members of the Parent-Teacher Association, who hanged Dizzy Dean in effigy every week when he called the TV games for CBS, but for inveterate oops, I mean regular viewers of TV a "g' on the end of "hittin'" is as foreign sounding as an English movie in Texas.

Sandy assured me and the fans, however, that he won't be stuffy about his ability as an English grammarian.

If an interviewee says he feels "real good" or is hitting "real good," Sandy will let it go by unchallenged. Nor does he plan to conduct a coaching class in grammar for tongue-tied ballplayers.

-:-

"I KNOW 'real good' is bad grammar," said Sandy, "but there are times when its the only natural thing a ballplayer can say, especially when he's asked how he feels. If he says, 'Great!' then it sounds as if he is bragging. Do you want him to say, 'I feel exceptionally well" or what? Just try to answer that question yourself sometime."

In his pre-game show Sandy will try to avoid asking his guests how they feel and in this way eliminate a lot of "real goods." He has a theory, too, that one reason so many ball players appear inarticulate and confused is because of overanxious interviewers.

"You've got to have faith in the person you are interviewing," Sandy maintained. "I've been interviewed by these guys who ask a question, then virtually answer themselves before they look at you and say, 'Is that right?'.

-:-

"NATURALLY, the only thing left for you to answer is 'Right!' But the guy gives youa surprised look because you didn't say more, then goes off deciding you're dumb. I will study over what my guest has done during the week and hope he has the answers to my questions."

It's easy to see what will happen on "The Sandy Koufax Show" if the host approaches his job in this sensible a manner.

Don Drysdale and Willie Mays could turn into the Huntley - Brinkley of the baseball world with analytical dissertations on the game's finer points and how the theory of baseball might be applied to catching Ho Chi Minh off base.

-:-

THIS WEEK Sandy was supposed to warm up for his new assignment (pending outcome of the radio-TV strike) with appearances on NBC's "Today" show. In addition to an ever-increasing flow of marriage proposals, his mail now includes advice from fans on how to handle his new show.

He also is receiving letters from new-found friends who have ideas for TV shows which they'd like him to submit to the NBC brass.

As you can see now by watching him in his new TV role, Sandy has a nice easy dignity about himself and toward those around him. The man you see and the voice you hear are pure Koufax, too. He decided to play it natural, so took no voice lessons or other show biz coaching.

-:-

"IF I BECOME just an announcer, then I've failed my job," said Sandy. "I don't know exactly what my work with NBC will develop into, but eventually I'd like to produce TV shows."

In the meantime and between baseball seasons, Sandy reported, he will be making the banquet circuit and filling in for other assignments wherever NBC sees he can be a help to its image.

He won't be a huckster, though. There was some talk during contract negotiations about Sandy's doing commercials, but he turned down the opportunity. Thank you, Sandy.

103 New Cases Filed At Lisbon

LISBON—There were 103 new cases filed in Columbiana County Common Pleas Court last month — 34 divorce actions, 54 civil suits and 15 criminal cases.

Only 52 cases were disposed of in March, since Judge Joel H. Sharp was on vacation. Therefore, the number of cases pending increased to 817 as of March 31, compared with 766 March 1.

An analysis of dispositions shows 23 cases settled or dismissed, 19 cognovit or default judgments, six cases tried to court and four tried to juries.

Seven county cases are pending before the Seventh District Court of Appeals.

...AND DAD APPROVES.

Any new flame who passes out mink stoles doesn't have to be good-looking. But Mom's is.

Stands just under five feet tall. Strong, silent, dependable type; maybe a little on the square side.

And painted a wonderful color that just matches Mom's eyes.

Mom's new flame is her new Gas furnace. Every time she thinks of it she feels warm all over.

But about that mink. Dad figured it out: Gas heat costs about one-third as much as the flameless kind they had in their last house. Gas saves Dad up to several hundred dollars in heating bills every winter, thousands of dollars over the life of the mortgage. And that's a mink stole or two, or a new car, or a college education in anybody's bankbook.

There's more to the Gas heat story. Gas heat is fresh-air heat, circulating filtered-clean air that whisks tobacco smoke and cooking odors out of the air so fast you hardly notice them. Modern Gas heat warms every room evenly, with no chance of chilly floors or clammy basements.

Next time you fall in love with a home you're building or buying, make sure it has Gas heat.

Think of all the things you can do with the money you save with Gas.

MOM GOT A MINK FROM HER NEW FLAME!
...AND DAD APPROVES.

Any new flame who passes out mink stoles doesn't have to be good-looking. But Mom's is.

Stands just under five feet tall. Strong, silent, dependable type; maybe a little on the square side.

And painted a wonderful color that just matches Mom's eyes.

Mom's new flame is her new Gas furnace. Every time she thinks of it she feels warm all over.

But about that mink. Dad figured it out: Gas heat costs about one third as much as the flameless kind they had in their last house. Gas saves Dad up to several hundred dollars in heating bills every winter, thousands of dollars over the life of the mortgage. And that's a mink stole or two, or a new car, or a college education in anybody's bankbook.

There's more to the Gas heat story. Gas heat is fresh-air heat, circulating filtered clean air that whisks tobacco smoke and cooking odors out of the air so fast you hardly notice them. Modern Gas heat warms every room evenly, with no chance of chilly floors or clammy basements.

Next time you fall in love with a home you're building or buying, make sure it has Gas heat.

Think of all the things you can do with the money you save with Gas.

THINK OF ALL THE THINGS YOU CAN DO WITH THE MONEY YOU SAVE. GAS MAKES THE BIG DIFFERENCE.

Rutgers All-American Lloyd To Appear In Classic

Joins Little All-American Choices On Johnson Pontiac Entry

Bon Lloyd of Rutgers, one of the country's leading scorers this past season and practically everybody's All-American choice, will be among the star performers in the Ohio Valley Basketball Classic to be held April 5 and 6 at the Midland High gym.

Lloyd will play with the Johnson Pontiac team of Wellsville which is made up of a group of players from this past season.

— —

LLOYD battled All-Americans Lew Alcindor and Jimmy Walker for the scoring lead throughout the season. The Rutgers All-American will be available to play on Saturday night only since he is committed to play in the North-South game Friday, April 7 at Charlotte, N.C.

Bon Vecsey and Jim Migliore, co-chairmen of the Classic, said Lloyd would fly from Charlotte Saturday to appear in the Classic.

— —

THE 6-7 Lloyd was named to the Associated Press, United Press International and Look All-American teams plus others.

He was the leading foul shooter in the country and achieved a record of 35 straight free throws.

An explosive outside shooter, Lloyd led Rutgers to the semi-finals of the NIT before his team was eliminated by Southern Illinois, the eventual champion.

In the NIT consolation game, Lloyd who averaged almost 29 points per game this past season, scored 41 points, a favorite for Most Valuable player honors. He was voted out by Walt Frazier, the Little All-American from Southern Illinois.

IN FOUR NIT games, Lloyd scored 129 points to set a new tournament record.

Joining Lloyd on the Johnson Pontiac roster are an all-star group of Little All-Americans led by Tom Fontanella of Westminster named to the first team NAIA All-American squad.

Fontanella averaged over 25 points per game for the Titans this past season and scored 42 in one contest for a new school record. Fontanella, who stands 5-11, is a deadly outside shot.

— —

ALONG with Fontanella will be Bill Turner and Don Williams who starred for Akron the past three seasons. Turner who stands 6-0 and Williams 6-3 have been Little All-American choices the past two seasons.

They combined to lead Akron into the NCAA small college playoffs for the last three years and were named to the NCAA all-Regional team the last two seasons. Both averaged 18 points per contest.

Don Carlos, a star in the Ohio Conference for Otterbein, will be with Johnson Pontiac, Classic officials announced.

— —

CARLOS has been a first team Little All-American choice for the past two years and averaged 25 points a game during the last season.

Neil Brayton of Youngstown, who performed for the University of Maryland a year ago, also is listed with the Johnson Pontiac entry.

The Classic now has three teams with the fourth to be announced in a few days.

THE HOT DOG Stoppe, defending champions, has entered Connie Hawkins, the ex-Globetrotter who is expected to be one of the top stars in the newly formed American Basketball Association.

Another entry is Patterson Industries who is sponsoring Canisius College of Buffalo, N.Y., which pulled some of the top upsets in the East during the 1966-67 campaign.

Tickets for the Classic are on sale in East Liverpool at Reary's, the Hot Dog Stoppe, Colonial Grill and Connor's Barber Shop. In Midland, tickets can be purchased at Migliore Fruit Co. or Eaton's Confectionery.

Masters Tourney Is Under Way

Jack, Arnie Are Favored At Augusta

By BOB GREEN
Associated Press Sports Writer

AUGUSTA, Ga. (AP) — Gary Player, once a tiny tiger, is now just a coy kitten.

The fiercely burning competitive drive that made him one of the most feared golfers in the world has dwindled to a flicker and he's the forgotten man of the Big Three.

"I don't get charged up any more," the tanned little South African said today as he teed off in another Masters. "I keep trying to get it back, get that drive, that desire, but it just isn't there any more.

"When you have achieved all your goals, your thinking changes, your whole outlook on life changes."

Player, along with Arnold Palmer and Jack Nicklaus, made up the Big Three that dominated the game for several years. But that all changed in 1965 when Gary won the U.S. Open championship in St. Louis.

"I was so wound up then I didn't know where I was," Player recalled. "I didn't want to talk to people. I had a short temper. I was almost obsessed."

That changed when he won the title in a playoff with Kel Nagle.

"That did it," Player said. "When I won that one I felt I had achieved everything and I stopped working on golf."

The victory made him only the third man to win all four major tournaments — the Open, the Masters, the PGA and the British Open — and he went into semi-retirement.

He made fifteen appearances last year, was not a factor in any major tournament and isn't expected to be in this one.

Palmer, the only four-time Masters champ, and Nicklaus, defending champion and three-time winner, were co-favorites at 6-1 when the field of 82 of the world's best golfers teed off on the demanding 6,980-yard, par 72 Augusta National Course.

Doug Sanders and U.S. Open Champ Billy Casper were next at 8-1 while Player, Gay Brewer and Julius Boros were listed at 10-1.

Hornets Win Cup Opener

By The Associated Press

The Hornets got Player's major goal in opening game Wednesday night of the American Hockey League's Calder Cup Playoffs.

In the best-of-7 series, Cleveland scored three fast third-period goals for a 4-1 victory over Rochester and Baltimore put Pittsburgh in the first four minutes, beating Quebec, 4-1.

Pittsburgh, the Western Division champion, opened with a Hershey lead with two quick second period goals and defeated the Eastern champs 4-2 in their best-of-7 series.

Cleveland struck three times in six minutes early in the third period, snapping a 1-1 tie against Rochester in a match between the second and third place finishers in the West.

Tom McCarthy broke the tie on a power play at 2:13. Then Wayne Schultz and Howie Glover connected for the three-goal edge.

Cleveland goalie Ernie Wakely started the play on Keith McCreary's second period goal, becoming the first goalie to assist on a playoff goal in AHL history.

Reed, Ludovici Spark Bears In 3-0 Verdict

A two-hitter by Vic Reed and a two-run double by first baseman John Ludovici sparked Oak Glen to a 3-0 victory at Beaver Local Wednesday.

The victory leaves Oak Glen with a 2-1 record while Beaver Local dropped its second start in three outings.

Reed allowed only two hits as he blanked the Beavers and helped his own cause by collecting two singles and driving in the Bears final run in the sixth inning.

Ludovici smacked a double with two mates on board to give Oak Glen a 2-0 lead in the third inning.

Mike Piatt, the starting pitcher, was charged with the loss and was relieved by Bob Flint in the sixth. Oak Glen collected six hits.

Midland is scheduled to play at Beaver Local today.

Two American Horses Set For Grand National

AINTREE, England (AP) — Two American-owned horses are regarded as having the best chance to win the world's toughest steeplechase, the Grand National at Aintree on Saturday.

Different Class, owned by film star Gregory Peck, is the early 8-1 favorite in the probable field of 48 for the grueling four miles, 856-yard race over 30 obstacles. Anglo, ownedby Tom Ganes of Lexington, Ky., and Ganes J. Houlihan of New York, is held at 12-1.

The Grand National combines the so-called spring double for British bettors, most of whom were eliminated Wednesday when Kilbeha finished out of the money in the first race of the double, the one-mile Lincolnshire Handicap at Doncaster.

Ben Novus won the race by a half length over Aberdeen with Danella four lengths back in the third place. The first Irish Sweepstakes of the season was based on the race and holders of tickets on Ben Novus each won $40,000.

Exhibition Contest Called Because Of Too Much Sun

By ROD LAPPOPPE
Associated Press Sports Writer

It was former Dodger pitcher Billy Loes who once explained an error by claiming he had lost a ground ball in the sun, but that could hardly have prepared the baseball world for the great Las Vegas shutout.

It happened Wednesday when the Chicago Cubs and California Angels were locked in a fierce exhibition struggle in the gambling capital.

The score was 0-0 and Angels pitcher Rickey Clark's teamed in, looking for the plate, but couldn't find it. The sun, on the horizon directly behind the plate, was so blinding, in fact, that he couldn't see much of anything.

Clark called umpire Stan Landes to come out to the mound and take a look. Landes agreed the situation was intolerable and called the game off.

Billy Williams batted in five runs for the Cubs, two each on a pair of tremendous home runs. But the Angels scored four unearned runs in the ninth that tied the game.

Paul Schaal and Jimmie Hall hit home runs for the Angels.

Elsewhere on the baseball scene, the Baltimore Orioles assigned Steve Barber to their Rochester farm club to see if he can work into shape for the opening of the major league season next week. A mainstay of the Orioles staff last season, Barber has been troubled with an inflamed tendon in his pitching elbow.

In a night game with the New York Yankees, the Orioles took a 5-3 decision despite six innings of shutout pitching by Mel Stottlemyre for the Yanks.

Ken Henderson's run-scoring double in the 10th sent San Francisco to a 6-5 triumph over Cleveland. Bob Aspromonte's three-run homer was the big blow in Houston's 10-3 victory over Los Angeles.

Washington came up with four runs in the ninth, two scoring on a single by Doug Camilli, and bounced Boston 5-3. Jim Northrup hit a single with the bases full and two out in the ninth, driving in the winning run for Detroit, which downed Kansas City 7-6. Northrup also homered for the Tigers.

Atlanta scored three times in the first inning and beat Minnesota 5-3 despite a homer by Rich Rollins for the Twins. Lee May's single in the 12th inning gave Cincinnati a 4-3 win over Pittsburgh. Billy McCool gave up one hit in six innings for the Reds and Woody Fryman allowed only one hit in five frames for the Pirates.

Rich Allen and Bob Uecker homered for Philadelphia, but St. Louis rallied for two runs in the seventh innings and beat the Phils 5-4.

Baseball To Give President Pass

WASHINGTON (AP) — Baseball makes sure today that President Johnson won't have a reason for his pitfront if case he attends any major league games this year.

A delegation headed by Commissioner William Eckert is to give the President a good pass good for admission at all big league parks.

Johnson has given no indication whether he will be on hand Monday to throw out the first ball at the American League opener between the New York Yankees and the Washington Senators.

Johnson is regarded as something less than an ardent sports fan, but he did attend opening games here in 1965 and 1965.

The victory made him only the third man to win all four major tournaments — the Open, the Masters, the PGA and the British Open — and he went into semi-retirement.

He made infrequent appearances last year, was not a factor in any major tournament and isn't expected to be in this one.

Tom McCarthy broke the ice on a power play at 1:12. Then Wayne Schultz and Howie Glover connected for the three-goal surge.

Cleveland goalie Ernie Wakely started the play on Keith McCreary's second period goal, becoming the first goalie to assist on a playoff goal in AHL history.

Reed, Ludorici Spark Bears In 3-0 Verdict

A two-hitter by Vic Reed and a two-run double by first baseman Tom Ludovici starter Oak Glen to a 3-0 victory at Beaver Local Wednesday.

The victory leaves Oak Glen with a 1-0 record while Beaver Local dropped its second start in three outings.

Reed allowed only two hits as he blanked the Beavers and helped his own cause by collecting two singles and driving in the Beavers final run in the sixth inning.

Ludovici smacked a double with two mates on board to give Oak Glen a 3-0 lead in the third inning.

Mike Piatt, the starting pitcher, was clouted with the loss and was relieved by Bob Flint in the sixth. Oak Glen collected six hits.

Aiudami is scheduled to play at Beaver Local today.

Two American Horses Set For Grand National

AINTREE, England (AP) — Two American-owned horses are regarded as having the best chance to win the world's toughest steeplechase, the Grand National at Aintree on Saturday.

Different Class, owned by film star Gregory Peck, is the early 8-1 favorite in the gruelling four miles, 856-yard race over 30 obstacles. Angle, owned by Tom Gaines of Lexington, Ky., and trained by Houtman of New York, is listed at 12-1.

The Grand National completes the so-called spring double for British bettors, most of whom were eliminated Wednesday when Kilbeha finished out of the money in the first race of the double, the one-mile Lincolnshire Handicap at Doncaster.

Ben Novus won the race by a half length over Rosereen with Daniela four lengths back in the third place. The first Irish Sweepstakes of the season was based on the race and holders of tickets on Ben Novus each won $40,000.

Exhibition Contest Called Because Of Too Much Sun

By BOB LUCIDORE
Associated Press Sports Writer

It was former Dodger pitcher Billy Loes who once explained an error by claiming he had lost a ground ball in the sun, but that could hardly have prepared the baseball world for the great Las Vegas shoot.

It happened Wednesday when the Chicago Cubs and California Angels were locked in a fierce exhibition struggle in the gaming capital.

The score was 0-0 and Angels pitcher Rickey [illegible] leaned in, looking for the plate, but couldn't find it. The sun, on the horizon directly behind the plate, was so blinding, in fact, that he couldn't see much of anything.

Clark called umpire Stan Landes to come out to the mound and take a look. Landes agreed the situation was intolerable and called the game off.

Billy Williams batted in five runs for the Cubs, two each on a pair of tremendous home runs. But the Angels scored four unearned runs in the ninth that tied the game.

Paul Schaal and Jimmie Hall hit home runs for the Angels.

Elsewhere on the baseball scene, the Baltimore Orioles assigned Steve Barber to their Rochester farm club to see if he can work into shape for the opening of the major league season next week. A mainstay of the Orioles staff last season, Barber has been troubled with an inflamed tendon in his pitching elbow.

In a night game with the New York Yankees, the Orioles took a 3-1 decision despite six innings of shutout pitching by Mel Stottlemyre for the Yanks.

Ken Henderson's run-scoring double in the 10th sent San Francisco to a 6-5 triumph over Cleveland. Bob Aspromonte's three-run homer was the big blow in Houston's 6-3 victory over Los Angeles.

Washington came in with four runs in the ninth, two scoring on a single by Doug Camilli, and bounced Boston 5-4. Jim Northrup hit a single with the bases full and two out in the ninth, driving in the winning run for Detroit, which downed Kansas City 7-6. Northrup also homered for the Tigers.

Atlanta scored three times in the first inning and beat Minnesota 6-3 despite a homer by Rich Rollins for the Twins. Lee May's single in the 12th inning gave Cincinnati a 4-3 win over Pittsburgh. Billy McCool gave up one hit in six innings for the Reds and Woody Fryman allowed only one hit in five frames for the Pirates.

Rich Allen and Bob Uecker homered for Philadelphia, but St. Louis rallied for two runs in the seventh inning and beat the Phils 5-4.

Baseball To Give President Pass

WASHINGTON (AP) — Baseball makes sure today that President Johnson won't have to wait for his pitcher if he attends any major league games this year.

A delegation headed by Commissioner William Eckert is to give the President a gold pass good for admission to all big league parks.

Johnson has given no indication whether he will be in hand Monday to throw out the first ball at the American League meeting between the New York Yankees and the Washington Senators.

Johnson is regarded as something less than an ardent sports fan, but he did attend opening games here in 1965 and 1966.

Orioles Picked To Fly Away With 2nd Straight Flag

By JACK HAND
Associated Press Sports Writer

NEW YORK (AP) — Baltimore has too many Robinsons for the rest of the American League and should win a second straight pennant. In this book, the only teams with solid chances to upend the favorites are the Detroit Tigers and the Minnesota Twins.

Despite the sore arms on Hank Bauer's pitching staff, the Orioles combine booming power, a tight defense and a strong bullpen. Bauer got only 23 complete games out of his staff last year but won easily by nine games and then swept the World Series in four straight.

It is tough to pick against a present for another year like 1965.

Chicago's pitching should keep them in the race and combination like that although the writer toyed with the idea of selecting Detroit. It is the feeling here that the Tigers could win it all but they have too many ifs in their pitching staff and could be ruined by an injury to a front liner.

★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ Detroit, Twins Could Make Battle

With the addition of Dean Chance, the Twins do have formidable pitching but too much depends on a comeback by Bob Allison and development in center field. The latent power is Cleveland and California probably will fight it out for the other first-division berth.

The New York Yankees figure to escape the cellar but it will be an upset if they crack the top five. Kansas City has good young pitching which could be enough to put them ahead of Boston and Washington.

If Jim Palmer, Wally Bunker and Steve Barber are not entirely sound when the seasons gets started, the Orioles may have to deal off a surplus outfielder to bolster the staff. Tom Phoebus, the young man who pitched two shutouts in his first two starts last fall but was not eligible for the Series, joins the starting rotation.

Frank Robinson, recovering from off-season knee surgery, and Brooks Robinson form a devastating punch. Toss in Boog Powell and Curt Blefary and add a few homers from Andy Etchebarren and the Orioles look real tough. Stu Miller, Eddie Fisher and Moe Drabowsky are expert firemen.

Mayo Smith appears to have the Tigers pulling together and hustling and Johnny Sain, his pitching coach, is doing a job with Joe Sparma. If Sain can provide enough strong arms to back up Denny McLain, Earl Wilson and Mickey Lolich, the Tigers really could be tough.

Dick McAuliffe has made the switch from short to second and Al Kaline, Willie Horton and Jim Northrup form a strong outfield.

The Twins' pitching is solid with Chance added to Jim Kaat, Jim Perry, Jim Grant and Dave Boswell. Harmon Killebrew is booming homers in exhibition games and Tony Oliva always is a threat for the batting title. Center and left could present problems to Manager Sam Mele.

Here's the way it looks from here:

Dave Bing Voted NBA's Top Rookie

DETROIT (AP) — "I would have been happier if our team did better and made the playoffs," said Dave Bing.

That was the reaction of the Detroit Pistons' star to the news that he had been named Rookie of the Year in the National Basketball Association.

The 6-foot-3 former Syracuse All-America was the runaway choice, being named on 74 of the 90 ballots cast by sportswriters and broadcasters, the league announced Wednesday.

Lou Hudson of the St. Louis Hawks, a former Minnesota standout, got 13 votes. Archie Clark of Los Angeles got the other three.

Bing, who gets $500 from the league for being the top rookie, acknowledged that "I had a good season," but it didn't start that way.

He wasn't even Detroit's prime choice in the NBA draft a year ago.

The Pistons wanted to pick an attraction closer to home — Michigan star Cazzie Russell — but a coin flip for first pick was won by New York and the Knicks plucked Russell out of the list.

Detroit took Bing, instead.

Bing, a guard, was confident — he bought a home on Detroit's northwest side before he played his first game — but wasn't a house afire at the start.

In his seventh game, he pumped in 16 points. In the next 80 games, he was out of the double figure column just once.

On 12 occasions he scored more than 30 and on March 8 he hit his high point — 47 points.

With an average of 20 per game, Bing became the fifth-highest rookie scorer in NBA history. He had 1,601 points.

The soft-spoken Bing finished the season as the 10th-ranking scorer in the league and also led Detroit in assists.

Kent Track Star Set On Four-Minute Mile

By The Associated Press

KENT, Ohio (AP)—Little Sam Bair, the Kent State miler with the big finish kick, is intent on shattering the four-minute mark in his specialty.

And coach Doug Raymond is convinced the diminutive Pennsylvanian will reach the goal.

"No doubt about it," Raymond says. 'We have planned for it and hope it comes before May, especially if the weather is right."

Bair also would like some day to outduel fabulous Jim Ryun, the Kansas sophmore who holds the world's record in the mile with a 3:51.3 clocking.

Ryun whipped Bair in the NCAA indoor meet at Detroit March 11 but needed a record 3:58.6 performance to prevail. Bair romped home second on a 4:01 effort, his best ever.

"He was very excited about running against Ryun, who after all is the best in the world. But he knows he has his hands full beating a runner like Ryun," Raymond said.

Bair, a 5-foot-6, 127 pound junior, is an education major who gets tougher with each year of competition.

"He had a history of ulcers that troubled him in his freshman year. But he's been on a strict diet and has been feeling fine the past two seasons," Raymond noted.

As a freshman, the runner from Scottsdale, Pa., turned in a 4:10.6. He produced a 4:05.2 indoor time and had a 4:04.6 outdoor during his sophomore year.

"He's a dream of a kid and takes coaching very well," Raymond said. "he has a marvelous kick and is a good, strong finisher. That's been his salvation in many races. But he needs to learn to pace himself better to crack four minutes.

Kent Track Star Set On Four-Minute Mile

By The Associated Press

KENT, Ohio (AP)—Little Sam Bair, the Kent State miler with the big finish kick, is intent on shattering the four-minute mark in his specialty.

And coach Doug Raymond is convinced the diminutive Pennsylvanian will reach the goal.

"No doubt about it," Raymond says. 'We have planned for it and hope it comes before May, especially if the weather is right."

Bair also would like some day to outduel fabulous Jim Ryun, the Kansas sophmore who holds the world's record in the mile with a 3:51.3 clocking.

Ryun whipped Bair in the NCAA indoor meet at Detroit March 11 but needed a record 3:58.6 performance to prevail. Bair romped home second on a 4:01 effort, his best ever.

"He was very excited about running against Ryun, who after all is the best in the world. But he knows he has his hands full beating a runner like Ryun," Raymond said.

Bair, a 5-foot-6, 127 pound junior, is an education major who gets tougher with each year of competition.

"He had a history of ulcers that troubled him in his freshman year. But he's been on a strict diet and has been feeling fine the past two seasons," Raymond noted.

As a freshman, the runner from Scottsdale, Pa., turned in a 4:10.6. He produced a 4:05.2 indoor time and had a 4:04.6 outdoor during his sophomore year.

"He's a dream of a kid and takes coaching very well," Raymond said. "he has a marvelous kick and is a good, strong finisher. That's been his salvation in many races. But he needs to learn to pace himself better to crack four minutes.

Hawks Stop Warriors

76ers Claim 3-0 Lead In Celtics

By The Associated Press

The sun began rising in the West, rivers starting running uphill, the Beatles walked into a barber shop, and the Boston Celtics stood on the verge of elimination in the National Basketball Association playoffs.

Boston sank three games behind Philadelphia in their Eastern Division playoff and another 76er victory Sunday in Boston would uncrown the Celtics after eight years as NBA champions.

The 76ers moved the Celtics closer to the brink by whipping them 115-104 Wednesday night for a 3-0 lead in their best-of-7 series as Wilt Chamberlain controlled everything.

In the Western Division, the result was less traumatic as the St. Louis Hawks pulled away from visiting San Francisco in the third period and beat the Warriors 115-109 for their first triumph in three playoff games.

Chamberlain took the game in Philadelphia into his own big hands, scoring 20 points, assisting on nine baskets, blocking shots and pulling down a playoff record 41 rebounds. He shared the old mark of 40 with Boston's Bill Russell.

It was big Wilt's dunk in the final period that put the 76ers ahead to stay 100-99, and when Wally Jones followed with three baskets and Chet Walker one for a 108-102 spread, the game was over.

Chamberlain had help from Hal Greer, who scored 30 points, and Jones, who hit 21.

Russell gave it a battle as he, John Havlicek and Sam Jones tried to protect the unprecedented reign of the Celtics. The player-coach grabbed 29 rebounds, had nine assists and scored nine points. Havlicek had 33 points and Jones 22.

Bill Bridges played the superman role for the Hawks as they kept alive their hopes moving into Saturday night's fourth game in St. Louis.

Bridges scored 25 points and pulled in a career high 32 rebounds to help offset 31 points by Rick Barry and 20 by Jeff Mullins.

The Warriors led 58-53 at intermission, but Lou Hudson sparked St. Louis' third period drive that outscored the Warriors 42-28. The rookie hit 12 of his 18 points in the period, including eight straight for a 93-78 margin. San Francisco never got closer than five after that.

Aqueduct Track Remains Closed

By ORLO ROBERTSON
Associated Press Sports Writer

NEW YORK (AP) — Aqueduct race track, where as high as $6 million has been wagered in one day, has been closed for two days. The shutdown has cost the State of New York an estimated $600,000. The track has lost half that amount in revenue.

Irked by failure of the Democrat-controlled State Assembly to pass a bill which would have added $3.5 million to purses, horsemen have refused to enter their horses. Anthony Travia, Democratic speaker of the Assembly and head of the Rules Committee, has told the horsemen to tighten their belts and wait another year and then ask again for more money.

The measure had been recommended by Gov. Nelson A. Rockefeller, a Republican, and passed overwhelmly by the Republican-controlled Senate. The measure would have reduced the state's share of the wagering from 10 to 9.5 per cent.

Travia said he couldn't justify giving $3.5 million to horsemen when it yas needed in so many other areas. Backers of the measure argue that increased purses would lead to better racing and increased revenue to the state.

Gov. Rockefeller has adopted a wait and see attitude. He has the power to call a special session of the legislature to consider the bill, which died in a committee when the state lawmaking body adjourned last Sunday.

"We have been tightening our belts for a long time," said Hirsch Jacobs, one of the nation's most successful trainers whose horses race in the name of his wife and daughter.

Officials of the Horsemen's Benevolent and Protective Association, which claims an almost 100 per cent membership among horsemen, point out that the $3,500 minimum purse was put in effect 21 years ago. Then it cost $8 to $10 daily to keep a horse.

"It costs $17 to $22 today," said Eddie Neloy, who trains a powerful stable for Mrs. H.C. Phipps and Ogden Phipps. "And that doesn't include some expenses as equipment, shipping, veterinarian, shoeing, jockeys and entry fees."

Named Top Rookie

FORT LAUDERDALE, Fla. (AP) — Outfielder Bill Robinson was voted Wednesday the top rookie in the New York Yankee baseball training camp by sports writers covering the Yankees.

Driver Faces Charge

LISBON—Harvey L. Dotson, 19, of Lisbon R.D. 4, charged Wednesday with reckless operation, posted a $35 appearance bond for a hearing Tuesday in mayor's court.

Former American League batting champion Mickey Vernon is managing Vancouver, B.C., this year in the Kansas City farm system.

YOUR CAR

By Al Green

YES, SOME PERSONS STILL THINK its smart, correct and legal to drive with parking lights on. Wrong on all counts. In every state in the union it is illegal to drive with parking lights on. Why? Law says so. Parking lights can be mistaken for far away headlights and result in crashes. You need headlights at dusk so others can see your car — not so you can see the road!

YOUR CAR JUST TURNED OVER 100,000 miles? Congratulations. More and more cars are these days. But how about 300,000? Some of the 1932 vintage Stutz Bearcats are still running today and have over 300,000 miles on their odometers!

MOBIL'S DEATHLY DRIVING BLUNDER No. 16. "If the speed limit is 60 mph, drive at 60 mph no matter how bad driving conditions are!"

NOW IS THE TIME TO PLAN FOR THAT pickup and camper you want. Stop by here at M&A MOTORS Dodge in East Liverpool and take a look at Dodge pickups for 1967. We can fit your needs and your purse at the same time. The 1967's are better than ever, so come on in and see!

ON A LONG DRIVE DO YOUR LEGS TWITCH or have muscle spasms? If so it may be a sign of exhaustion. The driver should pull over and take a rest or let someone else take the wheel.

REALIZE THAT YOUR CAR MUST HAVE a rear view mirror that lets you see a car 200 feet to the rear? If you load the back seat of your car so your inside mirror is blocked, you must have an outside one.

Stanley Cup Firing Begins

By The Associated Press

The struggle for the Stanley Cup — the most cherished trophy in hockey — begins tonight with semifinal playoff games at Chicago and Montreal.

In Chicago, the Black Hawks, who captured their first National Hockey League title ever this season, take on the Toronto Maple Leafs, third-place finishers.

Meanwhile, the Montreal Canadiens, defending Cup champions, open their semifinal series against the surprising New York Rangers.

Both Chicago and Montreal rate as favorites in the opening games and in the semifinal series.

The Black Hawks hope to have Bobby Hull ready for tonight's opener. Hull, who scored 52 goals for his second straight 50-goal season, sat out the final three regular-season games with damaged ligaments in his left knee.

Toronto, however, will be without first-string goalie Johnny Bower.

Open House Set For Fish Station

The Pennsylvania Fish Commission will hold "open house" at the Linesville Fish Cultural Station in Crawford County Sunday from 1 to 6 p. m., according to Robert J. Bielo, executive director.

The public is invited to close-up demonstrations of modern warm water fish culture. Ample parkng facilities are available near the scene of operations.

Included in the open house program will be inspection of devices and equipment used for warm water fish culture; demonstrations of methods used in taking and fertilizing muskellunge and walleye eggs; lifting of trap nets in the vicinity of the hatchery; demonstrating the use of the electro shocker in capturing and releasing fish unharmed; use of anesthetic in fish culture.

Treating fish eggs with formaldehyde to prevent fungus; viewing eggs and brood fish in hatching house; scale projection demonstration showing the methods for aging fish; mock-up of stream improvement devices; bringing catch from trap net to hatchery and demonstration of sorting fish and preparation for shipment to public waters; demonstration of tagging fish for future identification; demonstration of transportation units; demonstration of mechanical, self - cleaning screens; fishing demonstration-fly casting, spinning and bait casting; mounted specimens and acquarium displays.

The Commission is expecting to host more than 5,000 open house visitors this year, if the weatherman cooperates.

Hawks Stop Warriors

76ers Claim 3-0 Lead In Celtics

By The Associated Press

The sun began rising in the West, rivers starting running uphill, the Beatles walked into a barber shop, and the Boston Celtics stood on the verge of elimination in the National Basketball Association playoffs.

Boston sank three games behind Philadelphia in their Eastern Division playoff and another 76er victory Sunday in Boston would uncrown the Celtics after eight years as NBA champions.

The 76ers moved the Celtics closer to the brink by whipping them 115-104 Wednesday night for a 3-0 lead in their best-of-7 series as Wilt Chamberlain controlled everything.

In the Western Division, the result was less traumatic as the St. Louis Hawks pulled away from visiting San Francisco in the third period and beat the Warriors 115-109 for their first triumph in three playoff games.

Chamberlain took the game in Philadelphia into his own big hands, scoring 20 points, assisting on nine baskets, blocking shots and pulling down a playoff record 41 rebounds. He shared the old mark of 40 with Boston's Bill Russell.

It was big Wilt's dunk in the final period that put the 76ers ahead to stay 100-99, and when Wally Jones followed with three baskets and Chet Walker one for a 108-102 spread, the game was over.

Chamberlain had help from Hal Greer, who scored 30 points, and Jones, who hit 21.

Russell gave it a battle as he, John Havlicek and Sam Jones tried to protect the unprecedented reign of the Celtics. The player-coach grabbed 29 rebounds, had nine assists and scored nine points. Havlicek had 33 points and Jones 22.

Bill Bridges played the superman role for the Hawks as they kept alive their hopes moving into Saturday night's fourth game in St. Louis.

Bridges scored 25 points and pulled in a career high 32 rebounds to help offset 31 points by Rick Barry and 20 by Jeff Mullins.

The Warriors led 58-53 at intermission, but Lou Hudson sparked St. Louis' third period drive that outscored the Warriors 42-28. The rookie hit 12 of his 18 points in the period, including eight straight for a 93-78 margin. San Francisco never got closer than five after that.

Aqueduct Track Remains Closed

By ORLO ROBERTSON
Associated Press Sports Writer

NEW YORK (AP) — Aqueduct race track, where as high as $6 million has been wagered in one day, has been closed for two days. The shutdown has cost the State of New York an estimated $600,000. The track has lost half that amount in revenue.

Irked by failure of the Democrat-controlled State Assembly to pass a bill which would have added $3.5 million to purses, horsemen have refused to enter their horses. Anthony Travia, Democratic speaker of the Assembly and head of the Rules Committee, has told the horsemen to tighten their belts and wait another year and then ask again for more money.

The measure had been recommended by Gov. Nelson A. Rockefeller, a Republican, and passed overwhelmly by the Republican-controlled Senate. The measure would have reduced the state's share of the wagering from 10 to 9.5 per cent.

Travia said he couldn't justify giving $3.5 million to horsemen when it yas needed in so many other areas. Backers of the measure argue that increased purses would lead to better racing and increased revenue to the state.

Gov. Rockefeller has adopted a wait and see attitude. He has the power to call a special session of the legislature to consider the bill, which died in a committee when the state lawmaking body adjourned last Sunday.

"We have been tightening our belts for a long time," said Hirsch Jacobs, one of the nation's most successful trainers whose horses race in the name of his wife and daughter.

Officials of the Horsemen's Benevolent and Protective Association, which claims an almost 100 per cent membership among horsemen, point out that the $3,500 minimum purse was put in effect 21 years ago. Then it cost $8 to $10 daily to keep a horse.

"It costs $17 to $22 today," said Eddie Neloy, who trains a powerful stable for Mrs. H.C. Phipps and Ogden Phipps. "And that doesn't include some expenses as equipment, shipping, veterinarian, shoeing, jockeys and entry fees."

FORT LAUDERDALE, Fla. (AP) — Outfielder Bill Robinson was voted Wednesday the top rookie in the New York Yankee baseball training camp by sports writers covering the Yankees.

YOUR CAR

By Al Green

YES, SOME PERSONS STILL THINK its smart, correct and legal to drive with parking lights on. Wrong on all counts. In every state in the union it is illegal to drive with parking lights on. Why? Law says so. Parking lights can be mistaken for far away headlights and result in crashes. You need headlights at dusk so others can see your car — not so you can see the road!

YOUR CAR JUST TURNED OVER 100,000 miles? Congratulations. More and more cars are these days. But how about 300,000? Some of the 1932 vintage Stutz Bearcats are still running today and have over 300,000 miles on their odometers!

MOBIL'S DEATHLY DRIVING BLUNDER No. 16. "If the speed limit is 60 mph, drive at 60 mph no matter how bad driving conditions are!"

NOW IS THE TIME TO PLAN FOR THAT pickup and camper you want. Stop by here at M&A MOTORS Dodge in East Liverpool and take a look at Dodge pickups for 1967. We can fit your needs and your purse at the same time. The 1967's are better than ever, so come on in and see!

ON A LONG DRIVE DO YOUR LEGS TWITCH or have muscle spasms? If so it may be a sign of exhaustion. The driver should pull over and take a rest or let someone else take the wheel.

REALIZE THAT YOUR CAR MUST HAVE a rear view mirror that lets you see a car 200 feet to the rear? If you load the back seat of your car so your inside mirror is blocked, you must have an outside one.

Stanley Cup Firing Begins

By The Associated Press

The struggle for the Stanley Cup — the most cherished trophy in hockey — begins tonight with semifinal playoff games at Chicago and Montreal.

In Chicago, the Black Hawks, who captured their first National Hockey League title ever this season, take on the Toronto Maple Leafs, third-place finishers.

Meanwhile, the Montreal Canadiens, defending Cup champions, open their semifinal series against the surprising New York Rangers.

Both Chicago and Montreal rate as favorites in the opening games and in the semifinal series.

The Black Hawks hope to have Bobby Hull ready for tonight's opener. Hull, who scored 52 goals for his second straight 50-goal season, sat out the final three regular-season games with damaged ligaments in his left knee.

Toronto, however, will be without first-string goalie Johnny Bower.

Open House Set For Fish Station

The Pennsylvania Fish Commission will hold "open house" at the Linesville Fish Cultural Station in Crawford County Sunday from 1 to 6 p. m., according to Robert J. Bielo, executive director.

The public is invited to close-up demonstrations of modern warm water fish culture. Ample parkng facilies are available near the scene of operations.

Included in the open house program will be inspection of devices and equipment used for warm water fish culture; demonstrations of methods used in taking and fertilizing muskellunge and walleye eggs; lifting of trap nets in the vicinity of the hatchery; demonstrating the use of the electro shocker in capturing and releasing fish unharmed; use of anesthetic in fish culture.

Treating fish eggs with formaldehyde to prevent fungus; viewing eggs and brood fish in hatching house; scale projection demonstration showing the methods for aging fish; mock-up of stream improvement devices; bringing catch from trap net to hatchery and demonstration of sorting fish and preparation for shipment to public waters; demonstration of tagging fish for future identification; demonstration of transportation units; demonstration of mechanical, self - cleaning screens; fishing demonstration-fly casting, spinning and bait casting; mounted specimens and acquarium displays.

The Commission is expecting to host more than 5,000 open house visitors this year, if the weatherman cooperates.

Hints *from* Heloise

— By Heloise Cruse —

Dear Heloise; so many of us young mothers have found that bathing our babies in the kitchen sink is far easier than the bathinette.

However, since the bathinette is made out of plastic and the baby is less likely to slip, perhaps it has its safety features.

To combine safety with convenience, I bought a thin piece of foam rubber and put it in the bottom of my kitchen sink.

Now when I put my baby in the sink for her bath, she doesn't slip.

I thought this should be passed along to other mothers.

NEW MOTHER.

-:-

Yes, it should, and thank you from the bottom of our hearts. And, pat that little doll for me the next time you bathe her. Wish I could.

HELOISE

Dear Heloise: I go to work everyday, and find it hard to fold a large washing after work when I'm tired.

So I put up all my folding T.V. tables. I fold the laundry off one and separate it on different trays for the bathroom, bedroom, kitchen, etc. My basket is nearby to hold ironing that is to be done.

Now when I'm finished, everything for a certain room is on one tray. I carry the tray and all to each room. Saves the usual stooping over.

ALMA SAVAGE.

LETTER OF LOVE

Dear Heloise: My suggestion is for the wife who packs her husband's lunch.

Take an extra minute once in a while to write him a little note and pack it with the lunch. It doesn't have to be elaborate, just a simple "I love you" on a scrap of paper will make him feel like a king.

Whether you have been married seven months or seven years, this little message of love will not go unnoticed.

YOUNG BRIDE.

Dear Folks: Those little plastic stools (which cost less than $2.00) for the bathroom and kitchen are wonderful.

They can be spray painted any color. I used a little piece of leftover carpet, cut it to fit the top of the stool and glued it on.

This scrap of carpet happened to match my rug. Now it looks lovely. Not only does it keep the scratches off the stool, but the dust doesn't show!

HELOISE.

Dear Heloise: I am 12 years old and have found another use for your "good old" nylon net!

When cooling a cake on a rack, I learned when the cake is removed it has big creases across the top. (The cake also sticks to the rack.)

I place one or two thicknesses of nylon net on the rack before I ever put the cake on it. This not only decreased the creases, you don't have to wash the rack. (And the cake won't stick, either.)

LANI CHALLBURG.

-:-

You may be only 12 but here's 24 kisses! It worked.

AUNT HELOISE.

Dear Heloise: As a bachelor I would like to invade your column and perhaps help some housewives.

Men who lose a button on a coat sleeve sometimes find it impossible to find a match, besides all the trouble they have to go to looking for one.

When I lose a button, I just remove one from the opposite sleeve. Style today does not demand that we have so many buttons anyway.

I hope this helps.

TOM ADDINGTON.

-:-

It will. Especially for us'uns who don't have all "our buttons."

Thanks, pal.

HELOISE.

2 IN MEMORIAM

Lloyd P. Tudor. In loving memory of our dearly beloved husband and father who departed this life April 6, 1966.
A light from our household is gone,
A voice we loved is stilled.

As you always were before.

Housewife Coming Out Winner

Florida Grocery Stores At War With Each Other

MIAMI, Fla. (AP) — Remember the housewives' rebellion against supermarkets last fall? Well, one chain took the ladies at their word and now the grocery stores in southern Florida are at war with each other. The housewife is coming out a winner.

Eighty-eight stores in the Winn-Dixie chain today rounded out a week in a no-stamps, no-games, no-gimmicks marketing experiment featuring only lower prices. The boss said it is a success.

"There's not a chance in the world we will return to stamps," said C. W. Waldorf, chief of the Vero Beach-to-Miami division.

Other chains have struck back with advertising campaigns, insisting they will have lower prices and stamps.

"Rest assured," said a one-page ad showing a pretty, smiling housewife resting her cheek on a stampbook, "We won't take away your stamps." Another ad proclaims that stamps are "an American tradition."

But Waldorf said he isn't worried. "We have been surprised at the very few complaints we have received from giving up stamps."

Shoppers interviewed in the stores, most of which carry the name "Kwik-Chek," are also happy.

"I'll take money anytime," said Linda Thomas. Another housewife, carrying a pocket-size adding device, said she had saved almost a dollar on a $9 order.

Waldorf won't claim that kind of savings for every shopper. But he promises that the lower prices on all 7,000 items will be the same every day, not just on weekends.

For example, T-bone steaks came down 31 cents, a pound of bacon 11 cents, a can of applesauce 4 cents. Even prepackaged food with the price marked by the processor, such as potato chips or cookies, have been cut a penny or two. The old price is marked out.

Waldorf, 48, said he started thinking about the multimillion-dollar experiment when the housewives boycotted last fall to protest high prices. He set up a single store without stamps and watched the reaction.

"We decided that the people in our area were ready for lower prices and less frills," said the veteran of 30 years in retail food sales.

He closed his stores for five days and opened last Thursday with the new look.

"We figure that stamps add about 2 per cent to the food bill," he said. "We have added other economies, closing down on Sundays and closing on weekdays at 7 p.m. instead of 9, and we promise shoppers a savings day after day."

He would not reveal any statistics on volume. "If my competitor reads that we are up, say, 10 per cent or 20 per cent, you think he will keep on offering stamps and games?"

U.S. Hires Ex-Communist Soldiers As Scouts In Viet

WASHINGTON (AP) — The United States is hiring former Communist soldiers to help American troops locate Viet Cong guerrillas and their hideouts in South Vietnam, Pentagon sources report.

This new intelligence program was launched early this year in extreme northern areas of the country near the demilitarized zone. The repatriated enemy troops are called Kit Carson scouts.

They lead Marine patrols into the countryside to identity Communist guerrillas — usually indistinguishable from the friendly populace among whom they live—and locate enemy tunnels, arms and ammunition.

Sixty scouts, most of them former Viet Cong who were trained in North Vietnam and thus are intimate with enemy operations, are on the U.S. payroll.

For their hazardous turncoat assignment the scouts draw $40 a month, more than a South Vietnamese private gets. Because they are prime targets for assassination, the scouts live with the Marines.

The one-time Communists are screened long and hard before being allowed to lead American men, who could be vulnerable to ambushes.

Officers say that from a security standpoint the scouts have proved satisfactory. None has betrayed his new employers. One has been killed.

The program, unique from its payroll standpoint, is limited to the present 60 scouts.

"We hope to get authority for more," an officer said. "This has tremendous potential for separating the good guys from the bad in the villages."

The Agency for International Development holds the purse strings of the pseudo-spy effort.

Thousands of other defectors from Viet Cong rank have been put to good use by the South Vietnamese government.

At the recent Guam conference, South Vietnam's Prime Minister Nguyen Ca Ky reported that 10,000 of 50,000 former Viet Cong who returned to government allegiance are now serving in the South Vietnamese forces.

Hints *from* Heloise

— By Heloise Cruse —

Dear Heloise; so many of us young mothers have found that bathing our babies in the kitchen sink is far easier than the bathinette.

However, since the bathinette is made out of plastic and the baby is less likely to slip, perhaps it has its safety features.

To combine safety with convenience, I bought a thin piece of foam rubber and put it in the bottom of my kitchen sink.

Now when I put my baby in the sink for her bath, she doesn't slip.

I thought this should be passed along to other mothers.

NEW MOTHER.

-:-

Yes, it should, and thank you from the bottom of our hearts. And, pat that little doll for me the next time you bathe her. Wish I could.

HELOISE

Dear Heloise: I go to work everyday, and find it hard to fold a large washing after work when I'm tired.

So I put up all my folding T.V. tables. I fold the laundry off one and separate it on different trays for the bathroom, bedroom, kitchen, etc. My basket is nearby to hold ironing that is to be done.

Now when I'm finished, everything for a certain room is on one tray. I carry the tray and all to each room. Saves the usual stooping over.

ALMA SAVAGE.

LETTER OF LOVE

Dear Heloise: My suggestion is for the wife who packs her husband's lunch.

Take an extra minute once in a while to write him a little note and pack it with the lunch. It doesn't have to be elaborate, just a simple "I love you" on a scrap of paper will make him feel like a king.

Whether you have been married seven months or seven years, this little message of love will not go unnoticed.

YOUNG BRIDE.

Dear Folks: Those little plastic stools (which cost less than $2.00) for the bathroom and kitchen are wonderful.

They can be spray painted any color. I used a little piece of leftover carpet, cut it to fit the top of the stool and glued it on.

This scrap of carpet happened to match my rug. Now it looks lovely. Not only does it keep the scratches off the stool, but the dust doesn't show!

HELOISE.

Dear Heloise: I am 12 years old and have found another use for your "good old" nylon net!

When cooling a cake on a rack, I learned when the cake is removed it has big creases across the top. (The cake also sticks to the rack.)

I place one or two thicknesses of nylon net on the rack before I ever put the cake on it. This not only decreased the creases, you don't have to wash the rack. (And the cake won't stick, either.)

LANI CHALLBURG.

-:-

You may be only 12 but here's 24 kisses! It worked.

AUNT HELOISE.

Dear Heloise: As a bachelor I would like to invade your column and perhaps help some housewives.

Men who lose a button on a coat sleeve sometimes find it impossible to find a match, besides all the trouble they have to go to looking for one.

When I lose a button, I just remove one from the opposite sleeve. Style today does not demand that we have so many buttons anyway.

I hope this helps.

TOM ADDINGTON.

-:-

It will. Especially for us'uns who don't have all "our buttons."

Thanks, pal.

HELOISE.

Housewife Coming Out Winner

Florida Grocery Stores At War With Each Other

MIAMI, Fla. (AP) — Remember the housewives' rebellion against supermarkets last fall? Well, one chain took the ladies at their word and now the grocery stores in southern Florida are at war with each other. The housewife is coming out a winner.

Eighty-eight stores in the Winn-Dixie chain today rounded out a week in a no-stamps, no-games, no-gimmicks marketing experiment featuring only lower prices. The boss said it is a success.

"There's not a chance in the world we will return to stamps," said C. W. Waldorf, chief of the Vero Beach-to-Miami division.

Other chains have struck back with advertising campaigns, insisting they will have lower prices and stamps.

"Rest assured," said a one-page ad showing a pretty, smiling housewife resting her cheek on a stampbook, "We won't take away your stamps." Another ad proclaims that stamps are "an American tradition."

But Waldorf said he isn't worried. "We have been surprised at the very few complaints we have received from giving up stamps."

Shoppers interviewed in the stores, most of which carry the name "Kwik-Chek," are also happy.

"I'll take money anytime," said Linda Thomas. Another housewife, carrying a pocket-size adding device, said she had saved almost a dollar on a $9 order.

Waldorf won't claim that kind of savings for every shopper. But he promises that the lower prices on all 7,000 items will be the same every day, not just on weekends.

For example, T-bone steaks came down 31 cents, a pound of bacon 11 cents, a can of applesauce 4 cents. Even prepackaged food with the price marked by the processor, such as potato chips or cookies, have been cut a penny or two. The old price is marked out.

Waldorf, 48, said he started thinking about the multimillion-dollar experiment when the housewives boycotted last fall to protest high prices. He set up a single store without stamps and watched the reaction.

"We decided that the people in our area were ready for lower prices and less frills," said the veteran of 30 years in retail food sales.

He closed his stores for five days and opened last Thursday with the new look.

"We figure that stamps add about 2 per cent to the food bill," he said. "We have added other economies, closing down on Sundays and closing on weekdays at 7 p.m. instead of 9, and we promise shoppers a savings day after day."

He would not reveal any statistics on volume. "If my competitor reads that we are up, say, 10 per cent or 20 per cent, you think he will keep on offering stamps and games?"

U.S. Hires Ex-Communist Soldiers As Scouts In Viet

WASHINGTON (AP) — The United States is hiring former Communist soldiers to help American troops locate Viet Cong guerrillas and their hideouts in South Vietnam, Pentagon sources report.

This new intelligence program was launched early this year in extreme northern areas of the country near the demilitarized zone. The repatriated enemy troops are called Kit Carson scouts.

They lead Marine patrols into the countryside to identify Communist guerrillas — usually indistinguishable from the friendly populace among whom they live—and locate enemy tunnels, arms and ammunition.

Sixty scouts, most of them former Viet Cong who were trained in North Vietnam and thus are intimate with enemy operations, are on the U.S. payroll.

For their hazardous turncoat assignment the scouts draw $40 a month, more than a South Vietnamese private gets. Because they are prime targets for assassination, the scouts live with the Marines.

The one-time Communists are screened long and hard before being allowed to lead American men, who could be vulnerable to ambushes.

Officers say that from a security standpoint the scouts have proved satisfactory. None has betrayed his new employers. One has been killed.

The program, unique from its payroll standpoint, is limited to the present 60 scouts.

"We hope to get authority for more," an officer said. "This has tremendous potential for separating the good guys from the bad in the villages."

The Agency for International Development holds the purse strings of the pseudo-spy effort.

Thousands of other defectors from Viet Cong rank have been put to good use by the South Vietnamese government.

At the recent Guam conference, South Vietnam's Prime Minister Nguyen Ca Ky reported that 10,000 of 50,000 former Viet Cong who returned to government allegiance are now serving in the South Vietnamese forces.

Ex-Hobo King Dies Heart Attack Fatal

ASHLAND, Neb. (AP) — Harry Beetison, 83, two-time king of the hobo fraternity, died Wednesday. He became rich in 1957 when it was discovered that hilly farm land he owned was rich in limestone and he leased the land to excavating companies.

SANTA BARBARA, Calif. (AP) — Donald Scott, 87, of Cambridge, Mass., a former director of the Peabody Museum at Harvard University, died Tuesday of a heart attack at a ranch where he had been vcationing.

Ohio's Lake Erie ports account for nearly one - third of the Great Lakes waterway transportation.

Lloyd P. Tudor. In loving memory of our dearly beloved husband and father who departed this life April 6, 1966.
A light from our household is gone,
A voice we loved is stilled.

That never can be filled.

Though on earth you are no more.
But in memory you are with us,
As you always were before.

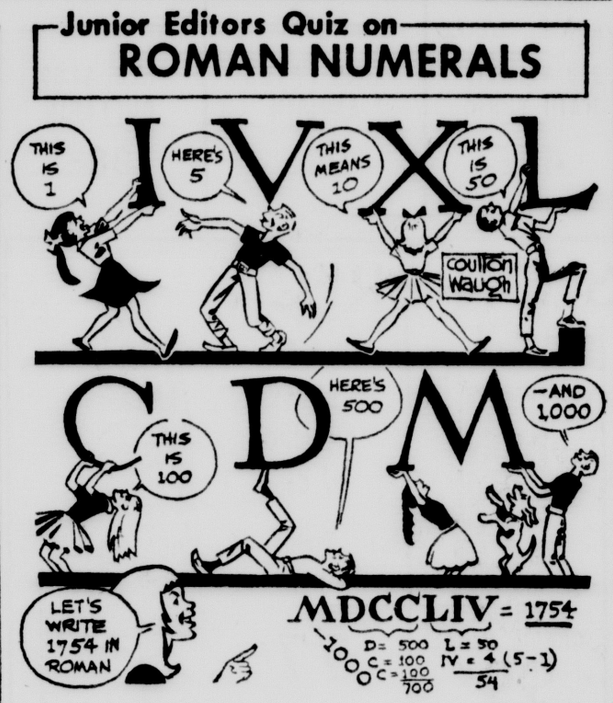
Junior Editors Quiz on ROMAN NUMERALS



QUESTION: How did Roman numerals come into use?

★ ★ ★

ANSWER: The Romans had a huge empire in which much business was transacted. Needing simple, clear symbols for numbers, they chose letters, some of which they had inherited from the Greeks. A widely accepted theory is that they chose I for 1 because it looked like a single finger held up. Similarly, a hand with its 5 fingers out is V-shaped, so they chose V for 5. X is like 2 V's, with points joining, so X meant 10, because of 10 fingers. V was easily suggested, since centum meant 100, and M suggested mille, Latin for thousand. L for 50 was possibly picked for its different shape. One writes Roman numerals from left to right, in 4 groups: thousands, hundreds, tens and digits. The groups are added as one reads from left to right. An exception is any number beginning with 4 to 9. In this case, the smaller number is to the left of the larger one and must be subtracted from it. So, instead of writing IIII for 4 (which would look confusing) one writes IV, meaning 1 is subtracted from 5, making 4, in the same way 9 is written IX, 40 becomes XL and 90 is XC.

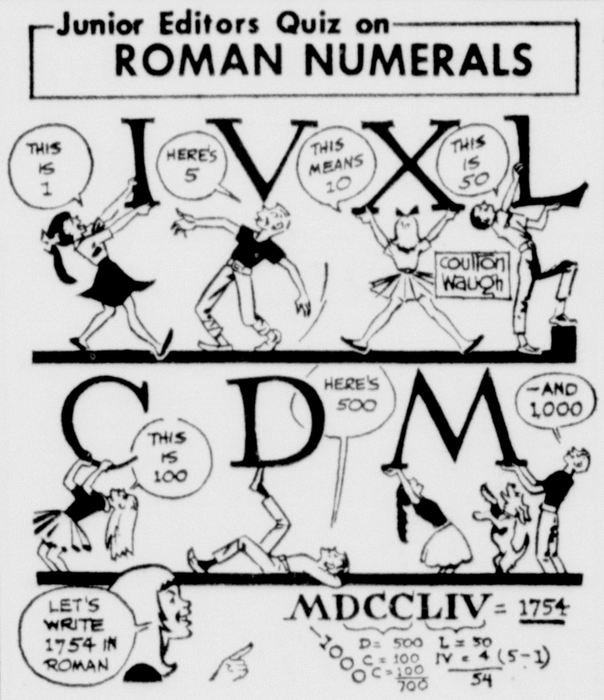
Junior Editors Quiz on ROMAN NUMERALS



QUESTION: How did Roman numerals come into use?

★ ★ ★

ANSWER: The Romans had a huge empire in which much business was transacted. Needing simple, clear symbols for numbers, they chose letters, some of which they had inherited from the Greeks. A widely accepted theory is that they chose I for 1 because it looked like a single finger held up. Similarly, a hand with its 5 fingers out is V-shaped, so they chose V for 5. X is like 2 V's, with points joining, so X meant 10, because of 10 fingers. V was easily suggested, since centum meant 100, and M suggested mille, Latin for thousand. L for 50 was possibly picked for its different shape. One writes Roman numerals from left to right, in 4 groups: thousands, hundreds, tens and digits. The groups are added as one reads from left to right. An exception is any number beginning with 4 to 9. In this case, the smaller number is to the left of the larger one and must be subtracted from it. So, instead of writing IIII for 4 (which would look confusing) one writes IV, meaning 1 is subtracted from 5, making 4, in the same way 9 is written IX, 40 becomes XL and 90 is XC.
